1 This quarterly status report provides a consolidated accounting of the
2 reporting items set forth in Section D.9 of the Settlement Agreement, including the
3 First and Second Addenda (together, “Agreement”), between Plaintiffs and the
4 County of Los Angeles (“County”) for the quarter ending September 30, 2025.

5 **I. REPORTING ITEMS**

6 **A. Support For Plaintiffs’ Settlement With The City**

7 Section D.9.i.1 of the Agreement states that “[u]pon receiving information
8 from City at least 30 days before a quarterly report is due,” the County will report
9 on “support services for interim and permanent supportive housing units,” including
10 “what services have been provided, and numbers of PEH accessing services.
11 County shall have no responsibility to confirm or otherwise verify the accuracy or
12 completeness of the information provided to it by City or on behalf of City.”

13 **1. Support Services Provided**

14 The County continues to fund and provide supportive services to clients of the
15 interim housing and permanent supportive housing (“PSH”) units created by the
16 City as part of its settlement with Plaintiffs who meet the eligibility criteria for those
17 services. The services provided by the County during the reporting period include a
18 suite of “mainstream” services provided by the Departments of Health Services
19 (“DHS”), Mental Health (“DMH”), Public Health (“DPH”), and Public Social
20 Services (“DPSS”) to clients who resided at interim housing and PSH that the City
21 reported as created or otherwise obtained by June 30, 2025 (*see* Dkt. 1011).¹ These
22 mainstream services cover:

- 23 • Healthcare Services: DHS operates a network of hospitals, centers, and
24 clinics at which low-income residents, including people experiencing homelessness
25

26 _____
27 ¹Exhibits A1 and A2 to the County’s Quarterly Reports always have a delayed
28 reporting period because they are dependent on information reported by the City.
Exhibits A1 and A2 cover the same time period, as stated in the exhibits.

1 (“PEH”), in need of healthcare can obtain a range of clinical medical services
2 including emergency/urgent care, inpatient, and outpatient services.

3 • Mental Health Services: DMH is the local Mental Health Plan (MHP)
4 under Medi-Cal regulations that administers (including by contracting out) the
5 provision of “specialty mental health services” as defined in state law to Medi-Cal
6 beneficiaries in the County who (1) meet the requisite diagnostic and impairment
7 criteria outlined in state and federal regulations governing Medi-Cal eligibility,
8 service, and benefit standards, and (2) obtain any specialty mental health services
9 for which they are diagnosed as eligible through the MHP. DMH provides a
10 spectrum of specialty mental health services to eligible PEH with moderate to severe
11 mental health conditions, include assessments, case management, crisis intervention,
12 medication support, peer support and other rehabilitative services.

13 • Substance Use Disorder (SUD) Services: The Substance Abuse
14 Prevention and Control (a division of DPH) administers some SUD services under
15 contract with the state Department of Health Care Services (DHCS) to provide
16 covered Drug Medi-Cal Organized Delivery System (DMC-ODS) services to Medi-
17 Cal beneficiaries in the County who obtain services at a treatment site certified by
18 DADP, including eligible PEH, for which it must satisfy applicable state and federal
19 requirements regarding program administration and provider licensing.

20 • Public Social Services: DPSS provides cash assistance, food and
21 nutrition, access to health care, job resources, and various community services for
22 eligible PEH in the City’s new interim housing and PSH:

23 ○ CalFresh (CF): CF (nationally known as SNAP) improves
24 people’s nutrition in low-income households by increasing their food-buying power
25 so that they can purchase sufficient food to meet their household’s nutritional needs.

26 ○ Medi-Cal (MC): MC is California’s healthcare program that
27 provides comprehensive health coverage for people with low or no income.

28 ○ General Relief (GR): GR is a County-funded program that

1 provides cash aid if you are an adult without any income or resources, and children
2 in certain special circumstances who are ineligible for federal or State programs.

3 ○ Skills and Training to Achieve Readiness for Tomorrow

4 (START): START (previously known as GROW) provides employment and training
5 services to help participants obtain jobs and achieve self-sufficiency. Participation
6 is mandatory as a condition of aid for GR but voluntary for CF participants.

7 ○ California Work Opportunity and Responsibility to Kids or

8 CalWORKs (CW): CW provides temporary financial assistance and employment-
9 focused services to families with minor children whose income and property are
10 below State maximum limits for their family size.

11 ○ Welfare-to-Work (WtW): Now referred to as Greater Avenues for
12 Independence (GAIN), this program helps California Work Opportunity and
13 Responsibility to Kids (CalWORKs) participants prepare for and find employment.
14 Services include job finding workshops, supervised job search, vocational
15 assessment, remedial education, vocational skills and training, and work experience.
16 Post-employment services are also available to help employed participants retain
17 their jobs, work toward a better one, and ultimately move to financial independence.

18 ○ CalWORKs' Child Care Program: The CalWORKs Child Care
19 Program reimburses childcare services for current and former participants who are
20 working or participating in a County-approved WtW activity.

21 ○ Homeless-Temp: A homeless CW family can receive from \$85
22 up to \$145 per day (depending on the Assistance Unit's ["AU"] size) for temporary
23 shelter in a commercial establishment (e.g., hotel, motel), a paid shelter, or with a
24 person or establishment with whom the AU has entered into a short-term lease,
25 sublease, or shared housing agreement. Temporary Homeless Assistance provides
26 temporary shelter payments in increments for up to sixteen (16) cumulative days of
27 benefits within a 12-month period.

28 ○ CAPI- Cash Assistance Program for Immigrants: This program

1 provides cash assistance to certain aged, blind, and disabled legal immigrants
2 ineligible for Supplemental Security Income/State Supplemental Payment (SSI/SSP)
3 due to their immigration status.

4 ○ Homeless-Perm: This program facilitates permanent housing by
5 providing payments to cover last month's rent and security deposits, and
6 utility deposits (turn-on fees) required for gas, electricity and/or water.

7 ○ Countywide Benefits Entitlement Services Team (CBEST): CBEST is a
8 DHS-administered program that assists eligible individuals, including PEH who are
9 homeless or at risk of homelessness, with applying for public disability benefits
10 such as Supplemental Security Income (SSI), Social Security Disability Insurance
11 (SSDI), Cash Assistance Program for Immigrants (CAPI), and VA Disability
12 Compensation. The team, comprising benefit advocates, clinicians, and legal
13 partners, supports successful disability benefit connections through application
14 assistance, liaison with relevant agencies, appeals process support, and linkage to
15 other essential services. A CBEST Advocate works with participants to develop
16 robust applications or connects them to accredited agents.

17 Once an interim housing site is reported by the City as open and operating,
18 the County begins coordinating between the site operator and relevant County
19 departments and/or organizes a "Service Connection Days" event to support
20 continuity of services as individuals transition to new locations and to help
21 participants connect to County services. County program staff and contracted
22 service providers visit City-created housing units to connect eligible residents with
23 available benefits, providing on-site access to essential programs and services.

24 Referrals to County mainstream services are not contingent on participation in
25 a specific site visit and occur regularly throughout a client's stay. The County
26 provides training to providers and operators on service referral processes. Interim
27 housing providers play a vital role in assisting clients' access to mainstream
28 services, for example, by helping maintain documentation for continuous benefits

1 and supporting the intake process for programs like CBEST.

2 At PSH sites reported by the City, DHS provides Intensive Case Management
3 Services (“ICMS”) in addition to mainstream services. Case managers employed at
4 contracted agencies provide supportive services to participants throughout their
5 housing stabilization process. ICMS is available only to residents of PSH and is
6 designed to assist clients in achieving and maintaining health, mental health, and
7 housing stability. For each client, the intensive case manager serves as the central
8 point of contact, coordinating care and services including: assessment and service
9 planning; linkage to health, mental health, and SUD services; assistance with
10 disability benefits, income, rental subsidies, legal issues, and transportation; crisis
11 management; tenant education; eviction prevention; and assistance with life skills,
12 job skills, and volunteer, educational and vocational opportunities.

13 DHS provides ICMS to most of the City’s PSH units financed by the City as
14 part of the City’s Settlement. DHS verifies ICMS provision at City PSH sites
15 through active contract management, utilizing various data points and systems to
16 oversee service delivery and timeliness. A key tool, the ICMS Snapshot, is refreshed
17 and reviewed weekly to track service frequency, health insurance status, housing
18 progress, income and benefits, and hospitalizations, which assists in identifying
19 service gaps and trends. Additionally, DHS requires quarterly assessments and care
20 plan updates for all program participants. These assessments help determine if
21 additional support, such as clinical services or behavioral health resources, is
22 needed. DHS staff also visit newly opened PSH sites to ensure collaboration
23 between ICMS and property management during tenant transitions. Ongoing onsite
24 visits are conducted to observe day-to-day ICMS operations, provide training and
25 technical assistance, and address critical cases through case conferencing. These
26 combined efforts facilitate monitoring of service delivery and resolution of issues.

27 **2. Number of PEH Accessing Services**

28 Attached as **Exhibit A1** is a summary of the County mainstream services

1 accessed during the reporting period by residents of the City’s interim housing sites.
2 The data is reported in summary form in light of applicable regulations governing
3 the disclosure of personal health information and information regarding substance
4 use treatment services, including the Health Insurance Portability and
5 Accountability Act of 1996 (“HIPAA”), 42 C.F.R. Part 2, and California statutes.
6 Attached as **Exhibit A2** is a summary of ICMS and mainstream services accessed
7 by ICMS residents and Master Lease residents in the City’s PSH during the
8 reporting period.²

9 **B. Service Requests From City-Funded Outreach Workers To County**
10 **Departments**

11 Section D.9.i.2 of the Agreement states that “[u]pon receiving information
12 from City at least 30 days before a quarterly report is due,” the County will report
13 on “the number of contacts or service support requests by City Outreach worker, and
14 the result of those contacts and/or service support requests. . . . County shall have
15 no responsibility to confirm or otherwise verify the accuracy or completeness of the
16 information provided to it by City or on behalf of City.”

17 The County’s prior reports detailed proactive efforts to establish a mechanism
18 for City-funded outreach workers to properly document mainstream services
19 referrals made to DHS, DMH, DPH, and DPSS within the Homeless Management
20 Information System (“HMIS”). This initiative followed the discovery that City-
21 funded outreach workers were not independently documenting these service
22 referrals. Consequently, the City was unable to provide the necessary information
23 for this reporting item, as street outreach team referrals were not consistently
24 recorded in HMIS. This prevented the County from populating disposition data for
25

26 _____
27 ² As previously discussed, the clients that these services are attached to comes from
28 a combination of the County’s ICMS client list, and a Master-Lease client list that is
produced by LAHSA on the City’s behalf.

1 referrals by City-funded outreach workers to County mainstream services. The
2 County, which does not employ these outreach workers, could not isolate service
3 referrals originating from them or segregate clinical evaluations/services provided
4 only to unsheltered PEH within the City responsive to the Settlement Agreement.

5 HMIS provides a solution to this informational asymmetry. HMIS is a secure
6 online data system that tracks client-level data and the provision of services and
7 housing for PEH and those at risk of homelessness, HMIS compliance with federal
8 data standards is mandatory for local governments receiving federal funding. The
9 County collaborated with LAHSA to implement a new naming convention and data
10 structure in HMIS to document service support requests by City-funded outreach
11 workers. A key purpose of HMIS is to generate aggregated data for such reporting.

12 After making a referral on behalf of a client, City-funded outreach workers
13 are now supposed to navigate to the “Programs” tab within the client’s HMIS profile
14 and toggle to the appropriate “Outreach program,” where there is a tab titled
15 “Provide Services.” There, the outreach worker should enter the referral they made.
16 This straightforward, fillable form and associated training went live last year.

17 With the updated fields, it is now possible to query all the referrals that were
18 entered into HMIS within a particular date range. However, HMIS reports are
19 limited to data that exists in the system, so inaccurate recordkeeping by outreach
20 workers will limit what referrals can be identified as responsive to the Settlement
21 Agreement. The City represented during the reporting period that it now requires
22 the outreach workers it funds to document their referrals in HMIS. During the
23 reporting period, the County also received the Monitor’s assistance in facilitating a
24 dialogue with the City and LAHSA to ensure they provide the County with a timely
25 and comprehensive list of City-funded outreach workers so that the County can
26 prepare these quarterly reports.

27 **Exhibit E** contains data on the disposition of referrals from City-funded
28 outreach workers to County Departments in the reporting period. Referrals are

1 counted/reconciled unless they (1) are not documented or improperly documented in
2 HMIS, (2) were not submitted by someone who the City or LAHSA has identified
3 as a City-Funded Outreach Worker, or (3) were withdrawn by the outreach worker.
4 Dispositions are reported on an aggregate basis consistent with federal regulations
5 and other confidentiality laws and regulations. The number of contacts or service
6 requests made by City-funded outreach workers to County departments nevertheless
7 decreased this quarter in large part because the number of outreach workers funded
8 by the City has been reduced to approximately one-third of the level reported
9 previously.

10 **C. High-Service Need Beds Available To County Outreach Teams**

11 Under the Agreement, the County agreed to use “reasonable best efforts to
12 ensure County outreach teams . . . have access to County Homeless Initiative-funded
13 high service need interim housing beds for PEH in the City, and that those beds shall
14 either be exclusively for use by, or prioritize, PEH in the City.” (Agmt § D.2.) The
15 County is required to report on “the number of referrals to Homeless Initiative-
16 funded high service need interim housing beds, the type of team making the referral,
17 the disposition of the referral, and an explanation for any referrals that are not
18 approved (if any).” (*Id.* § D.9.ii.) Attached as **Exhibit B** are referrals from County
19 outreach teams to DHS “high service needs beds,” as well as disposition info.³

20 These interim housing beds serve PEH with complex medical and behavioral
21 health conditions who need a higher level of support services than are available in
22 most interim housing settings. There are two types of housing within this category
23

24 _____
25 ³ Beds funded by other departments or sources are not included in the Settlement
26 Agreement and are not tracked or reported in the County’s quarterly status
27 report. The reporting provisions under the Agreement are focused on referrals to
28 Homeless-Initiative-funded High Service Needs Beds by County teams – referrals
from non-County teams are not reported. Therefore, the numbers in the County’s
status report do not represent the County’s overall housing placement efforts.

1 of beds: “Recuperative Care” beds, which are a short-term, unlicensed housing
2 options for individuals recovering from an acute illness or injury, or who have
3 conditions that would be exacerbated if they are not in stable housing with medical
4 care, as well as “Stabilization” beds for individuals who are medically vulnerable if
5 not placed into a stable living environment. For these beds, the County pays interim
6 housing providers a higher rate to obtain enhanced services for clients, and manages
7 the housing contracts strictly to require providers to accommodate PEH with
8 physical or behavioral health conditions. Depending on contract type and client
9 need, the enhanced services attached to these beds may include medical and
10 oversight services, hospice services, clinical supervision (such as from a Licensed
11 Clinical Social Worker) to help provider staff assess and triage, housing navigation,
12 case management, and assistance in obtaining documents to transition to other
13 housing. These resources are distinct from and in addition to the 3,000 new “mental
14 health” and “substance use disorder (SUD)” beds described in **Exhibit C**.

15 The MDT/HOME teams identify and evaluate clients based on individualized
16 assessments of need. To make a referral, the County teams would submit an IH
17 application via DHS’s “CHAMP” database. Clients undergo a comprehensive
18 assessment of diagnosis and care needs to determine eligibility, which requires the
19 client to be experiencing homelessness, have a complex health/behavioral health
20 condition, be able and willing to self-administer medication, and be cognitively alert
21 to person, place, date, and situation. The County dynamically manages bed
22 availability to coordinate client inflow for housing placements, and placement is
23 based on need and provider capacity. Incoming clients’ intake would be
24 documented in the County’s CHAMP database.

25 To date the County’s MDTs and HOME teams operating in the City have
26 referred over 1,600 clients to these high-service needs interim housing beds, and
27 DHS has accepted approximately 900 eligible clients. The MDTs refer more PEH
28 for placement than DMH’s HOME teams because the HOME teams work with a

specific population that may be better suited for different housing (such as a DMH bed). Those that were not accepted were due to a variety of reasons including an incomplete application, referrals to other programs, and referrals rescinded.

D. Mental Health (“MH”)/Substance Use Disorder (“SUD”) Beds

The County is pleased to report that it has already exceeded the December 2025 milestone of 1,800 new MH/SUD beds. The County added 496 new beds during this reporting period, bringing the total portfolio of new resources to 2,490 MH and SUD beds (1,131 MH beds and 1,359 SUD beds).

To fulfill its obligation under Section 9.iii.1 of the Agreement, **Exhibit C** contains information regarding “the number” of MH and SUD beds that have been developed/contracted since June 14, 2022 and continue to be open and operational, as well as the dates they did so. For this report, the County has also added a new column to reflect any changes during the reporting period as requested by Monitor (Hon.) Thomas Goethals.

These beds include a diverse mix of bed types to accommodate outstanding need, reduce bottlenecks, ensure appropriate step-down options, and support a continuum that avoids unnecessary hospitalization or prolonged stays.

Recovery Bridge Housing (RBH)	Recovery-oriented, peer-supported housing that provides a safe interim housing environment for individuals who are concurrently in some form of outpatient substance use disorder treatment.
Drug Medi-Cal (DMC)	Medi-Cal funded residential SUD treatment beds, inpatient SUD treatment beds, and residential withdrawal management (aka: detox) beds.
Urgent Care Center (UCC)	Mental health services lasting less than 24 hours for a timelier response than a regularly scheduled visit. Services include crisis intervention, assessment, evaluation, collateral, medication support services, therapy, peer support, etc. to avoid unnecessary hospitalization and incarceration while improving wellness for individuals with mental health disorders and their families

Crisis Residential Treatment Program (CRTP)	For individuals who are experiencing acute psychiatric impairment and whose adaptive functioning is moderately impaired. Patients are voluntary without medical complications.
Acute	Acute, short-term behavioral health treatment in an acute care or psychiatric hospital inpatient unit. Twenty-four-hour clinical structure, including nursing monitoring on-site 24/7 and clinical supervision and services
Subacute	Extended, 24-hour behavioral health treatment in a secured (locked) or otherwise traditional institutional environment. Twenty-four-hour clinical structure, including nursing monitoring on-site 24/7 and clinical supervision and services provided every day. Also known as Institute for Mental Diseases (IMD) beds.
Interim Housing	Temporary shelter services for adults with mental illness and their minor children who are experiencing homelessness and who are concurrently in some form of outpatient mental health services. Provides safe and clean shelter, 24-hour general oversight, three meals each day, linens, clothing, toiletries, and case management services. The goal of the program is to assist clients with transitioning to permanent housing.

There continues to be no singular “greatest need,” but, rather, need for a diversity of beds across the continuum of care. The County is regularly evaluating its portfolio of beds as well as identifying opportunities for new MH and SUD beds.

E. Enriched Residential Care For Adult Residential Facilities (“ARF”) And Residential Care Facilities For The Elderly (“RCFEs”) Beds

Under the Agreement, the County is making available 450 new enriched-rate subsidies through the Enriched Residential Care (ERC) Program for placements in ARFs and RCFEs, a more than 50 percent increase from existing subsidies (714). The ERC Program is administered by DMH and provides financial support for clients who require a higher level of care/assistance with daily living to obtain or maintain housing in licensed residential facilities (commonly known as Board and Cares). These are a critical housing resource for DMH clients who are homeless and/or at risk of homelessness, including individuals exiting other institutions like

hospitals or licensed beds. **Exhibit D** to this report contains information regarding referrals and placements in the ERC Program utilizing one of the new subsidies created pursuant to the Agreement.

To date, the County has activated 376 new "LA Alliance" subsidies, including 40 during the reporting period. The County has therefore already exceeded the milestone for 320 new subsidies by December 31, 2025.

**F. Multi-Disciplinary Teams (“MDTs”) And Homeless Outreach
Mobile Engagement (“HOME”) Teams**

The County has met and maintains its obligation to operate 34 MDTs and 10 HOME teams serving the City. A reallocation implemented in early 2025 aligned team assignments with the most recent Point-in-Time Count while maintaining continuity of care.

Council District	# of MDTs
1	3
2	1
3	1
4	1
5	1
6	2
7	2
8	2
9	4
10	2
11	2
12	1
13	3
14	7
15	2

In consultation with the City, MDTs are deployed proportionate to the distribution of unsheltered PEH by Council District (rounded to whole numbers), with at least one team per district and heightened presence in higher-density areas such as Skid Row (Council District 14). For example, Council District 14 has

1 approximately 23 percent of the unsheltered PEH in the City and the largest number
2 of dedicated outreach teams (7), or approximately 20 percent of existing teams.
3 Council District 9 has approximately 10 percent of the City's unsheltered PEH and 4
4 assigned MDTs, or approximately 11 percent of the teams. The Council Districts
5 with 3 MDTs each (which is the equivalent of 8.8 percent of the total MDTs) have,
6 respectively, between 8 and 9 percent of the City's unsheltered PEH. The Council
7 Districts with 2 MDTs each (which is the equivalent of 5.8 percent of the total
8 MDTs) have, respectively, between 5 and 6 percent of the City's unsheltered PEH.
9 The remaining Council Districts, which have the lowest percent of the City's
10 unsheltered PEH relative to other Council Districts (approximately 3–4 percent),
11 were each assigned 1 MDT.

12 HOME teams remain deployed by Service Planning Area and focus on the
13 most acutely mentally ill unsheltered population through field-based engagement
14 and treatment. HOME teams have a more targeted demographic and have always
15 been assigned to larger geographic areas of coverage such that no changes were
16 appropriate in light of the latest PIT Count. No changes occurred during the
17 reporting period, nor in the County's assessment of greatest need.

18 **G. Partnership On City- And County-Owned Land**

19 The parties continue to exchange parcel inventories and meet regularly to
20 assess feasibility. During the reporting periods reflected in prior filings, no new
21 City- or County-owned sites were jointly identified as suitable for additional shelter
22 or housing. Various County parcels remain earmarked for other uses or face
23 constraints (including remediation, zoning, or infrastructure limitations) that
24 preclude residential occupancy.

25 **H. The County's Advocacy Efforts For PEH With Serious Mental**
26 **Illness or Substance Use Disorder**

27 DMH and the Department of Public Health's Substance Abuse Prevention
28 and Control (DPH-SAPC) advanced federal and state advocacy to expand housing,

1 treatment capacity, and supportive services for PEH with serious mental illness
2 (SMI) or SUD.

3 ***Federal Advocacy:*** DMH engaged HUD on a regional definition of “chronic
4 homelessness” that would align with BHSA criteria and remove the 90-day
5 institutional stay limitation. The current federal definition excludes individuals who
6 have resided in an institution for more than 90 days, impeding housing placements
7 for clients exiting long-term residential treatment. A regional definition would better
8 support transitions from treatment to stable housing.

9 DMH also identified an opportunity to seek repeal or relaxation of the IMD
10 exclusion—long a County priority. DMH recommended that the CEO support two
11 federal bills that would mitigate IMD-related constraints on treatment capacity: H.R.
12 4022 (Increasing Behavioral Health Treatment Act) and H.R. 8575 (Michelle Alyssa
13 Go Act). Easing the IMD exclusion would increase behavioral health bed supply
14 and improve access for PEH with SMI.

15 DPH-SAPC analyzed and advocated on several federal issues affecting SUD
16 services and housing. Under the BH-CONNECT Section 1115 demonstration,
17 California secured authority for short-term room-and-board supports and episodic
18 housing interventions, subject to duration caps that coordinate with CalAIM. It also
19 successfully advocated to include recovery-oriented housing as an eligible setting
20 and continues to urge equitable reimbursement, including utilities and programming.

21 DPH-SAPC is closely tracking H.R. 1 due to potential impacts on Medicaid
22 eligibility, continuity of coverage, and Section 1115 budget neutrality, which could
23 narrow future waiver flexibilities critical to residential treatment options. DPH-
24 SAPC also provided subject matter expertise on H.R. 2483 (SUPPORT for Patients
25 and Communities Reauthorization Act of 2025), which would strengthen SUD
26 prevention, treatment, recovery programs, and workforce development through
27 2030, and is monitoring H.R. 5462 (Michelle Alyssa Go Act) and H.R. 4022, both
28 aimed at easing IMD-related constraints.

1 **State Advocacy:** DMH analyzed SB 27 (CARE Court) and raised concerns
2 about expanding “licensed medical professional” to include nurse practitioners and
3 physician assistants without behavioral health specialization, which could increase
4 inappropriate referrals of PEH to CARE Court. Subsequent amendments addressed
5 these concerns. The bill was signed in October 2025.

6 DPH-SAPC tracked 36 bills related to housing for PEH with SUDs in the
7 2025–26 session, including measures on recovery housing and residential SUD
8 facilities. DPH-SAPC supported AB 255 (Supportive-Recovery Residence
9 Program), which would have enabled funding for certified supportive-recovery
10 residences consistent with Housing First components while reserving funds for
11 harm-reduction housing. Despite bipartisan support, AB 255 was vetoed.

12 DPH-SAPC co-sponsored AB 1037 (SUD Care Modernization Act),
13 providing subject matter expertise. The bill updates standards to reflect evidence-
14 based practices, streamlines licensing and certification for residential SUD facilities,
15 permits discussion of harm-reduction interventions, and removes abstinence and 24-
16 hour sobriety requirements for admission and continuation in residential care. The
17 bill was signed; most provisions take effect January 1, 2026, with combined
18 licensing and certification effective January 1, 2027.

19 DPH-SAPC also reviewed draft Behavioral Health Information Notices on
20 housing-related Community Supports, recommending changes to minimize delays in
21 access, allow flexibility for transitional rent in emergencies, prevent premature exits
22 from transitional housing, and require Member preferred language in initial
23 outreach. DPH-SAPC participates in statewide behavioral health workforce
24 advocacy to ensure inclusion of SUD-specific roles.

25 **Housing and Services Expansion:** DPH-SAPC continued implementation of
26 its Reaching the 95% (R95) Initiative to broaden access to SUD services across
27 field-based and housing settings and to reduce barriers to care.

28 As of the reporting period, DPH-SAPC provides 1,750 Recovery Bridge

1 Housing (RBH) beds for individuals enrolled in outpatient SUD treatment for up to
2 360 days. An additional 130 beds are in contracting, for a total of 1,880 beds across
3 158 sites upon execution. While the Behavioral Health Bridge Housing-funded
4 expansion was completed in June 2025, SAPC continues to add capacity.

5 DPH-SAPC also offers 145 Recovery Housing (RH) beds for individuals
6 encouraged—but not required—to engage in outpatient SUD treatment for up to 12
7 months. The goal is to add 50 RH beds by the end of FY 2025–26.

8 Housing Navigation services under the Behavioral Health Bridge Housing
9 program are now available for all RBH and RH residents. Navigation began in April
10 2025 in SPAs 1-5 and 7-8, with SPA 6 scheduled to launch by October 31, 2025.

11 ***Value-Based Incentive (VBI):*** Through VBI, DPH-SAPC is supporting the
12 SUD provider network with workforce development, training to enhance clinical
13 standards, service design improvements, and payment reform under DMC-ODS and
14 CalAIM to strengthen organizational sustainability and quality of care.

15 **II. DATA VERIFICATION**

16 The County’s Monitor filed a Report on September 3, 2025 ([Dkt. 1029](#))
17 requesting the County’s assistance in developing “feasible, HIPAA-compliant
18 verification protocols” that “balance transparency with operational feasibility and
19 legal compliance without placing an unreasonable burden on the County or its
20 service providers.” The County met with the Monitor on September 24, 2025 to
21 discuss the County’s data integrity, and a follow-up conference is scheduled this
22 week to refine a protocol to allow the Monitor and/or Court to independently review
23 the County’s quarterly reports without duplicating the extensive efforts of Alvarez
24 and Marsal (“A&M”) over the last year.⁴

25 _____
26 ⁴ The County also met and conferred with the Monitor and other parties in July,
27 August, and September to discuss other items related to the Agreement, such as the
28 Monitor’s site visits and the County’s request for an updated list of City-funded
outreach workers.

1 As part of A&M's assessment, the County provided the underlying, County-
2 maintained data and information regarding the County beds and services accessed
3 by City PEH pursuant to the parties' settlement agreements, and covered the
4 \$620,000 in fees for A&M's analysis of those voluminous records. At A&M's
5 request, the County also facilitated 10 site visits, including visits to City PSH sites
6 where the County provides ICMS and County's high-service need interim housing
7 beds contracted for by DHS.

8 On March 6, 2025, A&M released its Second Amended Draft "Independent
9 Assessment of City-Funded Homelessness Assistance Programs" ("Report")
10 regarding this data (Dkt. 870), and presented its findings to the Court and public at a
11 status conference on May 15, 2025. A&M did not report any concerns with respect
12 to the verifiability of the data the County produced.

13 The County is already making public the invoices for contracts related to the
14 Agreement, which can also be found at <https://lacounty.gov/alliance/>, the website
15 the County created at the Court's request last year to enhance transparency in
16 provider billing related to the Agreement. The County is committed to working
17 cooperatively with the Monitor to validate reported data.

18 **III. CONCLUSION**

19 The County believes it is in full compliance with its obligations under the
20 Agreement.

Total Referrals for Zip Codes	29

* DPSS: Outreach workers document referrals for screening and assistance with benefits applications to CalWORKs, General Relief, CalFresh, and Medi-Cal submitted to the designated DPSS email address, PEHOutreachReferral@dpss.lacounty.gov. DPSS reports on whether it provided benefits information, intake applications, and application dispositions.

** DHS-CBEST: Outreach workers document referrals for screening and assistance with SSI, SSDI, and CAPI applications submitted by e-mail (cbestreferral@dhs.la.county.gov), phone (323-274-3777), or fax (213-482-3395). DHS-CBEST conducts intake appointment and reports on eligibility determinations.

*** DMH: Outreach worker document referrals for PEH experiencing a behavioral health crisis, or otherwise in need of specialty mental health treatment. Crisis referrals are submitted via telephone (800-854-7771), and referrals are added to dispatch board for response by a DMH Field Intervention Team. Other referrals are made through DMH's online portal, where referral is evaluated and assigned to appropriate program (i.e., HOME team, outpatient, or Full-Service Partnership). Upon receipt, provider will contact referring party or client to coordinate services. DMH reports on referral disposition as documented in Department's referral tracking system and/or the client's electronic health record system.

**** DPH-SAPC: Outreach workers document referrals to SASH by calling a 24/7 helpline 800-854-7771, and/or through or through contracted provider staff known as the CENS. SASH and CENS agents are able to provide screening, resources, and further linkage/referrals to SUD-treatment providers. DPH-SAPC reports on referral disposition as documented in clients' electronic health records.

***** No response was received to departmental inquiries about these referrals. This includes referrals previously reported as "in process."
