III.	DATA VERIFICATION.....	11

1 Pursuant to the Settlement Agreement between the County of Los Angeles
2 (the “County”) and Plaintiffs, including the First and Second Addenda (together, the
3 “Agreement”), the County hereby submits this status report containing the
4 information required by Section D.9 of the Agreement for the quarter ending June
5 30, 2026.

6 Special Master Goethals observed in his most recent annual report that this
7 Agreement “is a floor not a ceiling” on efforts to address homelessness in Los
8 Angeles County. The County agrees and has endeavored to conduct its work in that
9 spirit throughout this reporting period. While the County continues to meet or
10 exceed the enumerated milestones required by the Agreement, the County is aware
11 that its compliance with the terms of an Agreement designed to resolve litigation is
12 only one aspect of the broader work the County is doing every day to prevent and
13 end homelessness for the County’s most vulnerable people.

14 **I. DEPARTMENT OF HOMELESS SERVICES AND HOUSING**

15 The past quarter marks a transformative chapter in Los Angeles County’s
16 response to homelessness. Effective January 1, 2026, the County launched the
17 Department of Homeless Services and Housing (“HSH”), created pursuant to a
18 motion passed by the Los Angeles County Board of Supervisors in April 2025. For
19 the first time in the County’s history, a single, unified department is dedicated
20 exclusively to preventing and ending homelessness for people across the region.
21 HSH consolidates the Homeless Initiative that was launched in 2015 to coordinate
22 countywide homelessness strategies with Housing for Health, the former
23 Department of Health Services division that operated an integrated continuum of
24 care from street outreach to permanent housing. Under the leadership of Director
25 Sarah Mahin, HSH unifies the strengths of each entity to deliver a stronger, more
26 accountable, and more coordinated platform for serving people experiencing
27 homelessness (“PEH”).
28

1 Certain services and responsibilities relevant to the Agreement have been
2 transitioned to HSH, including Service Connection Events for interim housing
3 (“IH”) clients, intensive case management services (“ICMS”), Multi-Disciplinary
4 Teams (“MDTs”), high-service need interim housing beds, and the Countywide
5 Benefits Entitlement Services Team (“CBEST”).

6 The driving force behind HSH is accountability, transparency, and improved
7 care for PEH and those at risk of homelessness. In that spirit, effective July 1, 2026
8 (at the start of fiscal year 2026–2027), HSH assumed direct administration of all
9 programmatic County funding previously administered by at least three different
10 entities: the Chief Executive Office–Homeless Initiative, the Department of Health
11 Services–Housing for Health division, and the Los Angeles Homeless Services
12 Authority (“LAHSA”). HSH now directly manages hundreds of work orders with
13 LA County service providers. These contracts provide critical housing and
14 supportive services for tens of thousands of the County’s most vulnerable residents,
15 including more than 6,000 interim housing beds; more than 2,800 Time-Limited and
16 Shallow Subsidies; and approximately 26,000 Intensive Case Management Services
17 slots for people living in permanent housing.

18 By consolidating this funding and contracting under a single department, the
19 County is making its response clearer, faster, and more accountable. HSH has
20 implemented established best practices to ensure providers are paid reliably and on
21 time, and has strengthened regional collaboration by serving as a hub connecting
22 local jurisdictions (including the City), County departments, and community-based
23 organizations. In undertaking this historic transition, HSH engaged in months of
24 careful planning and close coordination with service providers to review each
25 contract individually and address potential disruptions before they arose.

26 The results of this sustained investment are measurable and meaningful.
27 Between July 1, 2025, and March 31, 2026, the County moved more than 4,000
28 people into permanent housing and brought nearly 5,000 people off the streets and

1 into safe interim housing. The 2026 Homeless Count revealed a 1.2% increase
2 overall across the County, which was the unsurprising product of a significant
3 decline in state and federal funding for the region. But where sustained investment
4 has occurred, real progress has followed: the Antelope Valley (SPA 1) saw a 37%
5 drop in unsheltered homelessness, the South Bay (SPA 8) saw a 12% overall
6 reduction, and there was a 21% reduction in recreational vehicles on streets across
7 the Continuum of Care. Measure A is now putting more local dollars into proven
8 solutions than ever before, with the County’s jurisdictional partners—like the
9 City—receiving nearly \$97 million through the Local Solutions Fund, and the Los
10 Angeles County Affordable Housing Solutions Agency (“LACAHS”) investing
11 over \$228 million to build and preserve affordable homes and over \$114 million in
12 programs to protect renters and prevent homelessness in FY 2026–27.

13 The County is proud of what this new department represents and is committed
14 to continuing to earn the trust of this Court and the communities it serves.

15 **II. REPORTING ITEMS**

16 **A. Support for Plaintiffs’ Settlement with the City**

17 *Reporting Basis:* Section D.9.i of the Agreement requires the County, upon
18 receiving information from the City at least 30 days before a quarterly report is due,
19 to report on: (1) support services for the City’s interim housing and permanent
20 supportive housing units, including what units are being supported, what services
21 have been provided, and numbers of PEH accessing services; and (2) the number of
22 contacts or service support requests by City-funded outreach workers and the results
23 thereof, including type of service requests, the agency providing services, the
24 number of requests per individual, and the location of each request. The County
25 also agreed to report on the dispositions of referrals from City-funded outreach
26 workers to County Departments each reporting period, to the extent it received
27 information from the City about what referrals their outreach workers had made.
28

1 *Status Report:* The County continues to support the Plaintiffs’ settlement with
2 the City by funding a suite of “mainstream” services at the City’s IH units, and
3 mainstream and ICMS at the City’s permanent supportive housing (“PSH”) units,
4 created pursuant to the Plaintiffs/City settlement.

5 Attached as **Exhibit A1** is a summary of the County mainstream services
6 accessed by residents of the City’s IH sites during the reporting period. The County
7 continues to actively coordinate service connection events for all City IH sites
8 across all Service Planning Areas, in addition to coordinating with site operators and
9 conducting pre-screenings regarding services when a site opens. Service Connection
10 Events function as one-stop-shop opportunities for clients to learn about and access
11 County services, and the County continues to provide training to site providers and
12 operators on how to refer clients for services throughout their stay.

13 Attached as **Exhibit A2** is a summary of services accessed by residents in the
14 City’s PSH during the reporting period. ICMS is intended to help participants
15 maintain housing stability. Case managers at contracted agencies provide supportive
16 services to participants throughout their housing stabilization process, including
17 assessment and service planning; linkage to health, mental health, and SUD
18 services; assistance with benefits, income, legal issues, transportation; crisis
19 management; tenant education and eviction prevention; and more. The County
20 conducts ongoing onsite visits to observe day-to-day ICMS operations, provide
21 training and technical assistance, and address critical cases through case
22 conferencing. These combined efforts allow the County to closely monitor service
23 delivery, promptly address issues, and ensure participants receive the support they
24 need.

25 **Exhibit E** contains the available data on the disposition of referrals from
26 City-funded outreach workers to County Departments that were documented in the
27 HMIS referral pathways for the reporting period. The County acknowledges,
28 consistent with Special Master Goethals’ prior observations, that Exhibit E

1 represents the only available data responsive to the specific reporting categories
2 required by the Agreement. The County and the parties are actively working to
3 identify and resolve City-funded outreach workers' low referral numbers. See
4 Section III (Data Verification) below for a summary of the action items arising from
5 the July 20, 2026 in-person meet and confer.

6 **B. High-Service Need Beds Available to County Outreach Teams**

7 *Reporting Basis:* Section D.9.ii of the Agreement requires the County to
8 report the number of referrals from County outreach teams to Homeless Initiative
9 (now HSH)-funded high-service need interim housing beds, the type of team making
10 the referral, the disposition of the referral, and an explanation for any referrals that
11 were not approved. These resources are distinct from, and in addition to, the 3,000
12 new MH/SUD beds discussed in Section C below.

13 *Status Report:* The County remains firmly committed to ensuring that its
14 MDT and HOME outreach teams can refer PEH in the City to high-service need IH
15 beds. The County prioritizes City PEH for this resource by giving them additional
16 weight when they are placed on the waiting list for a high-service need IH bed.
17 Placement decisions also account for each participant's acuity, level of need,
18 vulnerability, and program eligibility. In addition, all interim housing placement
19 decisions consider a participant's current geographic location, with the goal of
20 placing individuals as close as reasonably possible to where they are currently
21 located. Because the high-service need beds are located within the City, this
22 geographic-proximity consideration independently and further prioritizes City PEH
23 for placement in those beds. Taken together, the additional queue weight accorded
24 to City PEH, the geographic-proximity principle, and the City location of the beds
25 themselves provide City PEH with a meaningful and multi-layered placement
26 prioritization.

27 **Exhibit B** contains the required data regarding the number of referrals from
28 the County's MDTs and HOME teams operating in the City to these beds, the status

1 of those referrals, and the reasons any referrals were not accepted. During the
2 reporting period, the County received 171 referrals from County outreach teams and
3 accepted 50 PEH into high-service need IH beds. Cumulatively to date, HSH has
4 received a total of 2,158 referrals, of which 1,066 have resulted in placement or are
5 pending placement into a bed.

6 This data reflects a program that is working as intended. A larger number of
7 acceptances for a fixed number of resources demonstrate robust and sustained
8 demand for these placements. The fact that the number of referrals exceeds available
9 housing—and that existing housing is highly utilized—is evidence that the County’s
10 resources are being deployed conscientiously and efficiently, and that this resource
11 is reaching people who need them. The County continues to process referrals and fill
12 placements as capacity allows.

13 **C. Mental Health (“MH”)/Substance Use Disorder (“SUD”) Beds**

14 *Reporting Basis:* Section D.9.iii of the Agreement, as modified by the Second
15 Addendum ([Dkt. 647](#)), requires the County to report the number of beds developed
16 or contracted since June 14, 2022 (or the status thereof), the date said beds became
17 open and operational, and confirmation that said beds continue to be open and
18 operational.

19 *Status Report:* The County has met the December 2026 milestone of 3,000
20 MH/SUD beds ahead of schedule and has now exceeded that milestone by 422 beds.
21 During this reporting period, the County added 442 net new beds, bringing the total
22 portfolio to 3,422 MH and SUD beds—1,510 mental health beds and 1,912 SUD
23 beds. The accompanying **Exhibit C** continues to include a column highlighting net
24 change during this reporting period, as reformatted at the request of Special Master
25 Goethals, and reflects cumulative reporting consistent with the Agreement. All beds
26 listed in Exhibit C have been developed or contracted since June 14, 2022, and
27 continue to be open and operational unless otherwise noted.

28

1 The County acknowledges Plaintiffs’ request for additional context regarding
2 baselines—specifically, confirmation that the MH/SUD beds reported in Exhibit C
3 are ‘new’ beds, rather than ‘replacement’ beds. The County is preparing additional
4 information for Plaintiffs’ counsel on this issue, consistent with the action item from
5 the July 20, 2026 meet and confer, and will provide that information promptly.

6 **D. Enriched Residential Care for Adult Residential Facilities (“ARF”)**
7 **and Residential Care Facilities for the Elderly (“RCFE”) Beds**

8 *Reporting Basis:* Section D.9.viii of the Agreement, as added by the First
9 Addendum, requires the County to report the number of referrals received, the
10 names of referral sources, the number of referrals accepted, the date each individual
11 moved in, and the name and type of facility accepting the enhanced rate.

12 *Status Report:* Attached as **Exhibit D** is the updated referral and placement
13 information for enriched-rate subsidies through the Enriched Residential Care
14 (“ERC”) program for placements in ARFs and RCFEs. The County previously met
15 the December 2026 milestone of 450 new subsidies ahead of schedule and has now
16 exceeded that milestone by 64 subsidies. During this reporting period, the County
17 issued 514 cumulative “LA Alliance” subsidies, of which 509 are currently filled.

18 **E. Multi-Disciplinary Teams (“MDTs”) and Homeless Outreach and**
19 **Mobile Engagement (“HOME”) Teams**

20 *Reporting Basis:* Section D.9.iv of the Agreement requires the County to
21 report the number of MDTs deployed, their deployment locations, and how the
22 greatest need has been evaluated. Section D.9.v requires the same information for
23 HOME teams.

24 *Status Report:* The County has met and maintains its obligation to operate 34
25 MDTs and 10 HOME teams serving within the City. No changes occurred during
26 this reporting period.

27 MDTs are administered by HSH and deployed by local community-based
28 organizations. Each team generally includes a Health Specialist, Mental Health

1 Specialist, Substance Use Specialist, Peer with Lived Experience, and Case
2 Manager. MDTs are allocated to all eight Service Planning Areas by Homeless
3 Count, with at least one team assigned to work in each LA City Council District,
4 and remaining teams assigned where there is the greatest need. HOME teams are
5 operated by DMH and provide a full-scope street psychiatry program—the highest
6 level of outpatient care—for adults experiencing unsheltered homelessness and
7 severe and persistent mental illness. HOME currently operates approximately 18
8 teams countywide, generally with 2 teams per SPA.

9 As Special Master Goethals wrote in his most recent annual report, having
10 personally observed MDT and HOME team members working with PEH in the
11 field, “team members have impressed me with their diligence and motivation in the
12 face of extremely challenging circumstances.” This is difficult work, and the County
13 is proud of the extraordinary professionals who perform it every day.

14 **F. Partnership on City- and County-Owned Land**

15 *Reporting Basis:* Section D.9.vi of the Agreement requires a status update on
16 the City/County land partnership for creating new interim or permanent housing
17 units.

18 *Status Report:* No changes occurred during this reporting period.

19 **G. The County’s Advocacy Efforts for PEH with Serious Mental**
20 **Illness or Substance Use Disorder**

21 *Reporting Basis:* Section D.9.vii of the Agreement requires the County to
22 report the status of any advocacy or applications for additional state or federal
23 funding for PEH with serious mental illness or substance use disorders.

24 *Status Report:* During the reporting period (April 1, 2026–June 30, 2026),
25 DMH continued to advocate vigorously at both the state and federal levels for
26 resources, programs, and policies that sustain and expand the County’s capacity to
27 care for and house residents with serious mental illness who are experiencing or at
28 risk of experiencing homelessness.

1 At the federal level, DMH’s Executive Director Dr. Lisa Wong joined the Los
2 Angeles County Board of Supervisors on an April 2026 Washington, D.C. advocacy
3 trip, meeting with Federal Senate and Congressional Representatives and Federal
4 Administration agency staff. Dr. Wong advocated specifically for easing the
5 Institutions for Mental Diseases (“IMD”) Exclusion, which currently limits the
6 County’s capacity to expand local treatment beds for PEH with severe mental
7 illness. Additionally, DMH joined DHS, DPH-SAPC, and HSH in submitting
8 formal comments to the U.S. Department of Health and Human Services (“HHS”)
9 on the Centers for Medicare & Medicaid Services’ (“CMS”) Interim Final Rule
10 proposal implementing H.R. 1. The Department’s comments focused on ensuring
11 that PEH with severe mental illness retain the ability to qualify as “medically
12 frail”—and thus receive an exemption from H.R. 1’s work requirements—consistent
13 with the statute’s language.

14 At the state level, DMH achieved a significant advocacy victory this quarter:
15 the Department recommended that the County oppose the Governor’s May Revise
16 Budget proposal to convert the Mobile Crisis Services benefit from a statewide
17 Medi-Cal benefit to a county-optional benefit. Mobile crisis response services are a
18 critical component of an effective behavioral health continuum, helping PEH with
19 severe mental illness receive street-based care. The County adopted DMH’s
20 recommended opposing position, and the Mobile Crisis benefit was ultimately
21 preserved as a statewide, state-funded Medi-Cal benefit in the final FY 2026–27
22 state budget. This is a meaningful win for the most vulnerable people the County
23 serves. DMH also engaged with AB 2146 (Stefani), recommending amendments to
24 ensure that PEH with severe mental illness in the Coordinated Entry System
25 continue to be prioritized for supportive housing, and will continue to work with the
26 bill’s sponsors as it advances through the Legislature.

27 DPH-SAPC also continued its robust advocacy efforts during this period. Of
28 the 26 bills tracked by DPH-SAPC related to housing for people experiencing or at

1 risk of homelessness with SUDs, DPH-SAPC is actively advocating for two priority
2 bills. First, DPH-SAPC supports AB 1556 (Haney), which would clarify that
3 recovery residences meeting standards aligned with Housing First Core Components
4 and National Alliance for Recovery Residences (“NARR”) standards are eligible for
5 state funding—ensuring that the continuum of care appropriately serves individuals
6 seeking a substance-free environment in recovery. Second, DPH-SAPC actively
7 opposed SB 1060 (Valladares), which would have prohibited SUD treatment
8 facilities from operating within 1,000 feet of schools or daycare centers. At a time
9 when the SUD system already faces critical bed shortages, SB 1060 would have
10 forced many existing LA County treatment facilities to relocate or close, with no
11 funding for relocation. The Department’s advocacy contributed to the bill’s failure
12 to pass its House of Origin deadline in May 2026—it will not be moving forward.
13 This, too, is a material victory for the people the County serves.

14 At the federal level, DPH-SAPC joined other County departments in
15 submitting a joint public comment letter to CMS on the Interim Final Rule
16 implementing H.R. 1’s community engagement requirements. DPH-SAPC has also
17 continued to track H.R. 9542 (the Protecting Health Care and Lowering Costs Act),
18 which would repeal the Medicaid-related provisions of H.R. 1; H.R. 5462 (Michelle
19 Alyssa Go Act), which would amend the IMD exclusion to exclude facilities of 36
20 beds or fewer; and H.R. 4022 (the Increasing Behavioral Health Treatment Act),
21 which would repeal the IMD payment exclusion. DPH-SAPC continues to provide
22 subject matter expertise and technical assistance on each of these measures.

23 DPH-SAPC also launched a new Permanent Supportive Housing (“PSH”) program
24 this quarter to support low-barrier, recovery-oriented permanent housing
25 through rental subsidies and SUD-focused supportive services for individuals whose
26 SUD is a primary barrier to stable, independent living. DPH-SAPC projects the
27 introduction of approximately 250 PSH units in FY 2026–27, braiding multiple
28 funding sources to support this initiative. Additionally, DPH-SAPC anticipates

1 receiving Proposition 36 funding in FY 2026–27 to implement the behavioral health
2 provisions of that measure, including 50 Recovery Housing beds for justice-
3 impacted individuals.

4 **III. DATA VERIFICATION**

5 The County continues to work cooperatively with Special Master Goethals to
6 validate the information provided in its quarterly reports and to earn the confidence
7 of this Court that the data reported is substantively accurate and reflects the real-
8 world conditions it is meant to describe. The County understands that this Court
9 expects reported data to be independently verifiable, and that both procedural and
10 substantive compliance with the Agreement are essential. The County shares that
11 commitment without reservation. The County has taken concrete, proactive steps
12 before and throughout this reporting period to demonstrate that the numbers in these
13 reports correspond to real services being delivered to real people.

14 The County has been subject to continuous monitoring since the Settlement
15 Agreement was executed. Special Master Goethals has served as the County’s
16 monitor for the last year, building on the work of his predecessor. The County has
17 filed timely, comprehensive quarterly status reports explaining its full compliance
18 with Section D.9 of the Agreement for every reporting period. At no point during
19 those reports—which have now spanned multiple years—has the County ever fallen
20 short of its contractual milestones.

21 In addition to those required filings, the County has voluntarily gone beyond
22 its obligations. It has publicly posted all invoices for services provided under the
23 Settlement Agreement, making them available at <https://lacounty.gov/alliance/> and
24 updated at regular intervals. It turned over comprehensive underlying data to
25 Alvarez & Marsal, the independent firm retained to assess the City’s settlement
26 compliance, whose work did not find fault with either the accuracy or reliability of
27 the County’s reporting.

28

1 As part of the County's ongoing commitment to transparency, the County
2 provided Special Master Goethals with a formal presentation shortly after his
3 appointment explaining the County's reporting and verification methodology. The
4 City's monitor, Michele Martinez, was also present. That presentation addressed the
5 specific questions both monitors had identified regarding the reliability and
6 verifiability of the County's data: how the County determines the accuracy of the
7 data it receives from service providers; the County's internal chain of command for
8 homeless services (including the then-imminent launch of HSH); the sources and
9 systems underlying each exhibit in the quarterly reports; and the County's proposed
10 framework for validating reported data through a statistically sound sampling
11 approach. This approach—providing the monitors with the County's raw source
12 data and then allowing them to visit and verify sites independently—reflected the
13 County's commitment to grounding every reported figure in verifiable, real-world
14 operations.

15 While Plaintiffs' attention was directed toward the City's compliance
16 proceedings—in which Special Master Goethals was also participating as a
17 courtroom presence—the County continued to work cooperatively behind the scenes
18 throughout the fall of 2025 to lay the groundwork for deeper field-level verification.

19 At the County's invitation, Special Master Goethals participated in a field
20 ride-along with both an MDT and a HOME team operating in the City, followed by
21 a visit to the new HSH headquarters and a DMH-operated interim housing site
22 created pursuant to the Settlement Agreement. Before the ride-along, the County
23 provided the Special Master with underlying documentation, including contracts and
24 information on outreach teams and interim housing programs, to review in
25 advance—this process was similar to the approach previously used by the
26 independent assessors at Alvarez & Marsal, except they independently selected the
27 sites they visited rather than being invited to specific sites by the County. The
28 County also arranged a visit with Director Mahin at HSH headquarters. The ride-

1 along was designed to give the Special Master direct, firsthand visibility into how
2 MDT and HOME teams conduct outreach, how referrals are made and documented,
3 and how clients are connected to housing resources.

4 On May 11, 2026, the County hosted an in-person discussion at HSH
5 headquarters in Skid Row. The County renewed its repeated standing offers to
6 provide the Special Master with additional background documentation (including
7 underlying contracts), raw data, interviews with County staff and service providers,
8 and future site visits at any time, with the Special Master having the option to select
9 the sites, sample size, or a random-selection method. The meeting also served as the
10 occasion for a follow-up presentation to Special Master Goethals addressing the
11 specific data questions raised in the Special Master's 2026 Annual Report. That
12 presentation clarified the precise scope of the reporting obligation under Sections
13 D.2, D.4, D.5, and D.9.ii of the Agreement; explained why the referral numbers in
14 Exhibit B represent only a narrow, defined slice of the County's much broader
15 outreach and housing work; described the eligibility criteria governing high-service
16 need beds and why they necessarily limit the volume of referrals counted; and
17 identified a proposed enhanced verification pathway. Specifically, the County
18 offered to provide the Special Master with redacted, line-by-line data from the
19 quarterly reports, allowing the Special Master to select a sample of rows for which
20 the County would then produce contract documentation and client disposition
21 information, alongside facilitated site visits to the corresponding providers.

22 The County and Special Master Goethals were actively engaged in planning
23 the next stage of the Special Master's independent verification work, including
24 scheduling field-level site visits at provider locations listed in the County's quarterly
25 reports. Those discussions were progressing productively when the County learned
26 that Councilmember Monica Rodriguez had sent a letter directly to Judge Carter
27 raising concerns about mental health services in her district. The County had not
28 been consulted before that letter was sent. In response, the County moved quickly:

1 counsel conferred with the Special Master multiple times over the following weeks
2 to discuss the letter's allegations, provide factual context, and outline the County's
3 plan to address the Councilmember's concerns. The County also assembled and
4 transmitted to the Special Master a list of all MH/SUD beds located in City Council
5 District 7 appearing on the County's last quarterly report. The County offered to pull
6 the underlying contracts for any selected sites and to coordinate provider access in
7 advance, so that the Special Master could speak directly with personnel familiar
8 with the applicable agreements during any site visit. The County also offered to
9 have County personnel accompany the Special Master to help match the relevant
10 figures in the contracts—which are voluminous and contain numerous amendments
11 reflecting the County's expanding bed portfolio under the Agreement—to the
12 numbers reported in the quarterly report.

13 This is when Plaintiffs' counsel—apparently energized by the
14 Councilmember's letter—sought a court conference, placing new demands on the
15 parties' schedules and interrupting the County's and Special Master Goethals'
16 independently developing verification process. The County participated in an in-
17 person meet and confer on July 20, 2026, which included the parties, Special Master
18 Goethals, and Special Master Michele Martinez, about County-provided services
19 and housing under the Agreement.

20 ***Exhibits A1, A2, and E***

21 At the conference, Plaintiffs' counsel raised concerns regarding the adequacy
22 of County services at City-funded interim and permanent supportive housing
23 facilities, including access to specialty mental health services from DMH. The
24 County takes these concerns seriously and has addressed them consistently
25 throughout the litigation, and has even provided an authorization form on multiple
26 occasions to allow enhanced data sharing with outreach workers or other service
27 providers. As the County has explained, reported figures do not, as a legal or factual
28 matter, establish that services are being insufficiently provided. With respect to

1 referrals and response times, the County is awaiting information from the City
2 identifying service concerns as specifically as possible to allow the County to
3 conduct a thorough investigation.

4 Plaintiffs' counsel similarly contends that the low referral numbers in Exhibit
5 E indicate non-compliance. The County disagrees. Exhibit E reports only referrals
6 that were properly documented through the designated HMIS pathways, which is the
7 only mechanism the City has to capture this data — and the only data that is
8 responsive to the Agreement's reporting requirements. The County does not
9 supervise City-funded outreach workers and has no ability to compel their referral or
10 documentation practices. The County worked with LAHSA to build and maintain
11 the HMIS referral pathways, provided training to City-funded outreach workers, and
12 pushed to receive the City's current official list of outreach staff each quarter. The
13 County is sympathetic to the frustration created by low referral numbers from City
14 outreach workers and has actively sought to resolve it, as other outreach workers—
15 such as County-funded outreach workers—continue to successfully use HMIS to
16 document referrals without issue. For example, during the reporting period covered
17 by this Report, 207 total referrals were documented in the County's HMIS
18 pathways, most of which (148) were entered by County-funded outreach workers.
19 In contrast, only 15 referrals from 12 City-funded outreach workers were
20 documented in HMIS.¹ Additional data sources (such as DMH's universal outreach
21 worker referral portal) also corroborate low levels of referrals from City-funded
22 outreach workers

23 Following the meet and confer, the City agreed to take the lead in selecting
24 outreach teams from two City Council Districts as a sample and tracking referrals at
25

26 ¹ To assess referrals made by City-funded outreach workers, the County reviewed
27 and combined the City's two staff lists (City-funded LAHSA outreach workers list
28 and City-funded Non-LAHSA outreach workers), resulting in a de-duplicated total
of 142 outreach workers.

1 a granular level—in coordination with the County—to identify precisely where in
2 the referral pathway the gap occurs.

3 ***Exhibit B***

4 Plaintiffs’ counsel contends that the County has not demonstrated that high-
5 service need beds are being prioritized for City PEH, and that it is unclear how City-
6 funded providers and personnel can access these beds. The County clarified the
7 process: referrals to these beds are made by County MDT and HOME teams
8 operating within the City, which is exactly what the Agreement provides. Section
9 D.2 of the Agreement requires the County to make reasonable best efforts to ensure
10 County outreach teams have access to these beds for PEH in the City and that the
11 beds either be exclusively for use by, or prioritize, City PEH. The County has met
12 that obligation. Although receiving “priority” does not mean that a PEH in the City
13 automatically bypasses every other person awaiting placement for these beds, the
14 beds are geographically proximate to the City PEH they serve; the existing referral
15 structure through MDT and HOME teams is the appropriate mechanism under the
16 Agreement; and the County is not aware of any instance where a qualified City PEH
17 was denied access to an available bed. The County has provided additional
18 information regarding prioritization procedures above.

19 ***Exhibit C***

20 In response to questions from Plaintiffs’ counsel, the County explained that
21 Exhibit C reflects cumulative reporting of beds developed or contracted since June
22 14, 2022, consistent with the Agreement’s definition of qualifying beds. The County
23 is committed to providing Plaintiffs’ counsel with the clearest possible picture of
24 how this capacity was built, and has agreed to provide additional information to
25 Plaintiffs’ counsel.

26 * * *

27 As set forth above, the County remains committed to providing Special
28 Master Goethals and the Court with any additional documentation, interviews, site

1 visits, and raw data they need to independently verify that the County's reported
2 compliance is real and, ultimately, that needed services and housing are reaching the
3 PEH these resources are intended to serve.

* DPSS: Outreach workers document referrals for screening and assistance with benefits applications to CalWORKs, General Relief, CalFresh, and Medi-Cal submitted to the designated DPSS email address, PEHOutreachReferral@dpss.lacounty.gov. DPSS reports on whether it provided benefits information, intake applications, and application dispositions.

** DHS-CBEST: Outreach workers document referrals for screening and assistance with SSI, SSDI, and CAPI applications submitted by e-mail (cbestreferral@dhs.la.county.gov), phone (323-274-3777), or fax (213-482-3395). DHS-CBEST conducts intake appointment and reports on eligibility determinations.

*** DMH: Outreach worker document referrals for PEH experiencing a behavioral health crisis, or otherwise in need of specialty mental health treatment. Crisis referrals are submitted via telephone (800-854-7771), and referrals are added to dispatch board for response by a DMH Field Intervention Team. Other referrals are made through DMH's online portal, where referral is evaluated and assigned to appropriate program (i.e., HOME team, outpatient, or Full-Service Partnership). Upon receipt, provider will contact referring party or client to coordinate services. DMH reports on referral disposition as documented in Department's referral tracking system and/or the client's electronic health record system.

**** DPH-SAPC: Outreach workers document referrals to SASH by calling a 24/7 helpline 800-854-7771, and/or through or through contracted provider staff known as the CENS. SASH and CENS agents are able to provide screening, resources, and further linkage/referrals to SUD-treatment providers. DPH-SAPC reports on referral disposition as documented in clients' electronic health records.

***** No response was received to departmental inquiries about these referrals. This includes referrals previously reported as "in process."
