IN THE UNITED STATES DISTRICT COURT  
FOR THE CENTRAL DISTRICT OF CALIFORNIA

LA ALLIANCE FOR HUMAN RIGHTS,  
et al.,

Plaintiffs,

v.

CITY OF LOS ANGELES, a Municipal  
entity, et al.,

Defendant.

CASE NO. 2:20-cv-02291 DOC (KES)

Honorable David O. Carter,  
United States District Judge

**DEFENDANT CITY OF LOS  
ANGELES' QUARTERLY  
REPORT PURSUANT TO THE  
MAY 2026 AGREEMENT  
BETWEEN LA ALLIANCE FOR  
HUMAN RIGHTS AND THE CITY  
OF LOS ANGELES [DKT. 1252]**

Action Filed: March 10, 2020

Pursuant to paragraph 11 of the May 2026 Agreement Regarding Disputes Relating to the 2022 Settlement Agreement (Dkt. 1252), the City submits this quarterly report. The quarterly report consists of the following exhibits:

- **Exhibit A** reflects the categories of information that the City has reported to date in the quarterly reports for each housing or shelter solution created or obtained under the 2022 Settlement Agreement in the same manner and using the same definitions as it has done in the past; specifically, (a) Council District, (b) Intervention, (c) Project Type, (d) Address / Location, (e) Units / Beds, (f) Status, (g) Open & Occupiable Date, (h) Total People Experiencing Homelessness (“PEH”) Served.
- **Exhibit B** provides explanations of how the City created the units that already physically existed prior to the 2022 Settlement Agreement. **Exhibit B** includes Roadmap Beds that are being counted towards the City’s housing or shelter solution obligation, as provided in paragraph 1 of the May 2026 Agreement.
- **Exhibit C** reflects the number of PEH who have moved into a housing or shelter solution created under the 2022 Settlement Agreement or the Roadmap Agreement using the methodology outlined in paragraph 6 of the May 2026 Agreement. **Exhibit C** also reflects the number of PEH placed in a housing or shelter solution as a result of its efforts on Skid Row, as referenced in paragraph 6 of the May 2026 Agreement.
- **Exhibit D** reflects the data that LAHSA provided to the City regarding the number of PEH engaged within the City by Council District for the prior quarter. **Exhibit D** includes the total count of PEH engaged in the City of Los Angeles through all service providers, as calculated and reported by LAHSA. Data reflecting PEH engaged going back to the earliest date after January 2023 that LAHSA reports such data can be located in the City’s previous quarterly report (Dkt. 1247-4).
- **Exhibit E** reflects the data provided by LAHSA regarding the number of encampments (as defined by LAHSA) within the City by Council District. **Exhibit E** reflects the number of encampments in each Council District as provided by LAHSA as of June 30, 2026. Data reflecting the number of encampments in each Council District going back to the earliest date after June 2025 that LAHSA has such data can be located in the City’s previous quarterly reports (Dkts. 1247-5, 1138-5).

- **Exhibit F** reflects data provided by LAHSA on the number of offers of housing or shelter made to, the number of offers of housing or shelter accepted by, and the number of offers of housing or shelter rejected by PEH within the City for interim housing solutions, whether or not the offers are for housing or shelter solutions created under the 2022 Settlement Agreement.
- **Exhibit G** reflects data provided by LAHSA on the number of offers of housing or shelter made to, the number of offers of housing or shelter accepted by, and the number of offers of housing or shelter rejected by PEH within the City for permanent housing solutions, whether or not the offers are for housing or shelter solutions created under the 2022 Settlement Agreement.
- **Exhibit H** reflects the number of offers of housing or shelter made to PEH by using the “by-name” list typically created 2-4 days prior to an Inside Safe operation, the number of offers of housing or shelter accepted by PEH using the number of PEH who have moved into housing or shelter in connection with an Inside Safe operation, and the number of offers of housing or shelter rejected by PEH as the result of subtracting the number of offers accepted from the number of offers made.
- **Exhibit I** reflects the number of vacancies in housing or shelter solutions for PEH within the City by Council District as of June 30, 2026, including (a) the number of vacancies in housing or shelter solutions for PEH created under the 2022 Settlement Agreement to the best of the City’s knowledge based on available data (including data from LAHSA) and (b) data provided by LAHSA of the number of vacancies in housing or shelter solutions for PEH throughout the City whether or not the offers are for housing or shelter solutions created under the 2022 Settlement Agreement.

Consistent with paragraph 2 of **Exhibit A** to the May 2026 Agreement, the City will provide the Monitor today the complete set of underlying data the City relied on for preparation of this quarterly report in the form the data was provided to the CAO.

1 DATED: July 30, 2026

**Total PEH Served as of June 30, 2026**    **16,629**  
**Units/Beds Open to Date**    **13,546**  
**Units/Beds In Process**    **4,159**  
**Total Units/Beds Open to Date and In Process**    **17,705**

- (1) For Permanent Supportive Housing (PSH) interventions, the number reported in the "Units/Beds" column refers to the the number of Permanent Supportive Housing (PSH) units and does not include non-supportive affordable units or manager's units in the building.
- (2) For PSH interventions, the open and occupiable date may reflect the Ready for Occupancy (RFO) date reported by the Los Angeles Housing Department or, for sites with Project-Based Vouchers (PBVs) issued by the Housing Authority of Los Angeles (HACLA), the Housing Assistance Payment (HAP) contract issued by HACLA. Data collection for HAP contract effective dates began in the Quarterly Report as of September 30, 2023. Accordingly, projects with Open and Occupiable dates of July 2023 or later generally reflect the HAP contract effective date, unless the RFO date is later. Projects with Open and Occupiable dates before that date generally reflect the RFO date.
- (3) The number reported under the "Number of PEH Served" column is as follows, depending on the intervention/project type: 1) Number of PSH units leased as of the quarter end date (for PSH interventions); 2) Total number of intakes (for Interim Housing interventions).
- (4) These sites were originally created as a result of the Roadmap Agreement and are being added to the Alliance list as of the April 1, 2026 - June 30, 2026 quarter. The open and occupiable dates were originally reported on the City's Quarterly Reports pursuant to the Roadmap Agreement. Bold text is used to highlight these sites.
- (5) Five units at this site are currently pending ADA conversion.
- (6) Total PEH served has been corrected from the prior quarterly report.
- (7) The "Number of PEH Served" data is provided beginning January 1, 2025, which is the beginning of the quarter that the sites were included in the Alliance report. These are conservative numbers and they may increase in the future based on an expanded tracking module from LAHSA. The HMIS Inventory Module for these sites was originally configured to track one household per room; however, operationally, some rooms have been occupied by multiple households, which the original Inventory Module system did not support. The expanded Inventory Module is now in place and LAHSA is overseeing ongoing data quality assurance to ensure historic data for participants and households are reflected. As a result, certain participants and households may not be reflected in this report and the number of PEH served may be undercounted.
- (8) The number of units for Booking Agreement sites may fluctuate. The reported number of units reflects the highest number of units occupied during the reporting quarter. This data is based on an expanded Inventory Module from LAHSA. LAHSA is overseeing ongoing data quality assurance to ensure historic data for participants and households are reflected. This work is ongoing and as a result, the highest number of units occupied may be undercounted. Reporting on vacancies is not applicable for these agreements, as the agreements are based on unit utilization rather than a contracted number of units.
- (9) Master lease agreement will end on November 6, 2026.
- (10) The "Number of PEH Served" data is based on an April 1, 2025 start date, which is the beginning of the quarter that the sites were included in the Alliance report.
- (11) The "Number of PEH Served" data is based on an July 1, 2025 start date, which is the beginning of the quarter that this site was included in the Alliance report.
- (12) The start date for the "Number of PEH Served" data for these hotel/motel occupancy agreements are based on the dates that the sites were included in the Alliance report, which are reflected in the "Open & Occupiable Date column." These are conservative numbers and they may increase in the future based on an expanded tracking module from LAHSA. The HMIS Inventory Module for these sites was originally configured to track one household per room; however, operationally, some rooms have been occupied by multiple households, which the original Inventory Module system did not support. The expanded Inventory Module is now in place and LAHSA is overseeing ongoing data quality assurance to ensure historic data for participants and households are reflected. As a result, certain participants and households may not be reflected in this report and the number of PEH served may be undercounted.
- (13) Site address is confidential because it is an emergency shelter serving survivors of domestic violence.
- (14) These sites are listed as "Open" as of this quarterly report. Bold text is used to highlight these sites.
- (15) The number of PSH units at this site has been updated from 114 to 115. This site is undergoing ongoing rehabilitation. Units are being leased as they become occupiable. As of June 30, 2026, 102 units are open and 13 units are in process.
- (16) Site is being added as of the April 1, 2026 - June 30, 2026 quarter. Bold text is used to highlight these sites.
- (17) This site is undergoing ongoing rehabilitation. Units are being leased as they become occupiable. As of June 30, 2026, 127 units are open and 17 units are in process.
- (18) The number of PSH units at this site has been updated from 60 to 80.
- (19) Number of PSH units at this site has been updated from 20 to 42.
- (20) Thirteen booking/occupancy agreement sites had a downward adjustment in the number of PEH served from the prior quarterly report. This is likely due to incomplete data entry of historic data for participants and households in the expanded Inventory Module. The numbers are expected to increase in the future due to ongoing data corrections as the expanded inventory tracking module is fully implemented.
- (21) Based on the current projected timelines, these interventions may not be open by June 30, 2027. The City is monitoring the timelines for these projects. In the event that any sites do not open by June 30, 2027, they will continue to be tracked so that their open and occupiable dates may be reported in subsequent quarterly reports.
- (22) The City's approved bed plan includes 2,000 Time-Limited Subsidies (TLS) for new participants. Initial funding funding has been provided.

# **Exhibit B**

| Explanation of how the City created the units that already physically existed prior to the Settlement Agreement |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                          |

The project was awarded a Proposition HHH Supportive Housing Loan from the City.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                          |
| 60                                                                                                              | <b>PATH Villas Montclair/Gramercy (Recap-Site 2 of 2)</b><br><b>3317 W WASHINGTON BLVD Los Angeles, CA 90018</b><br><br>PATH Villas Montclair/Gramercy is a project consisting of two PSH sites: a new construction site at 4220 W. Montclair St (the Montclair site) and an acquisition/rehabilitation project at 3317 W. Washington Blvd (the Gramercy site). Only the Gramercy site is counting toward the Settlement, as the Montclair site opened prior to the Settlement start date.<br><br>The City provided financing to create 16 PSH units at the Gramercy site, which was in need of significant rehabilitation to ensure its long-term viability. The Gramercy site previously served as a transitional housing program for transition-age youth with children, with a typical program stay of 8 to 18 months. As a result of the City financing, the site was rehabilitated into a PSH site with all new unit interiors, building exteriors (repainting brick), roof, major systems (including elevator), landscaping, a new two-bedroom manager unit, and the reconfiguration and expansion of commercial space at the site used by the non-profit PATH Center.<br><br>The City financing for the project, which included the new construction at the Montclair site, included the City's issuance of tax-exempt multifamily conduit revenue bonds and, for the Gramercy site specifically, the commitment of HOME Investment Partnership Program (HOME) and Housing Opportunities for Persons with AIDS (HOPWA) funds allocated to the City by the U.S. Department of Housing and Urban Development (HUD). The Los Angeles County Department of Health Services (DHS) committed Flexible Housing Subsidy Pool (FHSP) rental subsidies for the 16 PSH units and provides Intensive Case Management Services (ICMS) at the site. |                                          |
|                                                                                                                 | <b>Project Homekey (Rounds 1, 2, or 3)</b><br><br>The State of California Homekey program, administered by the California Department of Housing and Community Development, provides funding for the conversion of existing buildings into permanent or interim housing. Sites are either acquired by partnering with non-profit agencies, with the City providing matching funds for the State dollars awarded, or by the Housing Authority of Los Angeles (HACLA). The list below provides details on the status of each site prior to acquisition as a Homekey site.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                          |

The land and building are federally owned. The project was awarded a Proposition HHH Supportive Housing Loan from the City. In addition, the City contributed to the project financing through the City's issuance of tax-exempt multifamily conduit revenue bonds.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                          |
| 76                                                                                                              | <b>Highland Gardens</b><br><b>7047 Franklin Ave Los Angeles, CA 90028</b><br><br>Highland Gardens is a hotel that was previously used by the City as a Project Roomkey (PRK) site from July 8, 2021 to October 31, 2022. The PRK program was a temporary program established in March 2020 as part of the State of California's response to the COVID-19 pandemic that provided non-congregate shelter options for people experiencing homelessness who were at high risk for medical complications, serious illness, or death from COVID-19. When the PRK program ramped down in October 2022, the City and hotel owner discussed converting the hotel into an interim housing site. The City approved funding for both leasing and services, and the site opened as an interim housing site on December 27, 2022. The site would have otherwise returned to its previous use as a hotel charging market rates, at the discretion of the owner. The services funding is provided by the City, but is eligible for reimbursement from the County. |                                          |
|                                                                                                                 | <b>Inside Safe Hotels/Motels</b><br><br>Under the Inside Safe program, existing hotels and motels are converted to interim housing through agreements between the owners and the City. The two types of contractual motel leasing agreements are booking and occupancy. A booking agreement confirms a fixed nightly rate, but motel rooms used may fluctuate based on the number of participants at a location and room availability. An occupancy agreement includes a fixed nightly rate as well as a guaranteed number of rooms, regardless if they are filled or not. Sites will serve as interim housing for as long as they are contracted with the City. The list of Inside Safe hotels/motels is provided below.                                                                                                                                                                                                                                                                                                                         |                                          |

|                                                                                                                 | <b>Tiny Home Village (THV)/Modular Unit Sites Originally Created as a Result of the Roadmap Agreement</b><br><br>The sites below are either Tiny Home Village or Modular Units. Tiny Home Village sites provide standalone sleeping units that accommodate a maximum of two participants, along with shared hygiene units, laundry facilities, and common areas. Modular units are similar to Tiny Home Villages but differ with regard to their larger size, greater amenities (such as residential units with bathrooms and kitchenettes), and longer lifespan. Sites are constructed on properties such as parking lots or vacant lots. The following THV/Modular Unit sites were created pursuant to the Roadmap Agreement and remain open. The site status prior to the creation of the THV/Modular Unit site is referenced below. |                                                                                                                                                           |

|                                                                                                                 | <b>Permanent Supportive Housing (PSH) Originally Created as a Result of the Roadmap Agreement</b><br><br>The following PSH sites were originally created pursuant to the Roadmap Agreement and remain open. City financing for these sites may include Prop HHH Supportive Housing Loans, the issuance of tax-exempt multifamily conduit revenue bonds/notes, and/or other City funding/financing. The majority of sites were newly constructed. The list below provides details on the status of each building prior to the creation of the Permanent Supportive Housing site. |                                                                                                                                                                                                                                                                                                                                 |

# **Exhibit C**

**Alliance Settlement Agreement****Quarterly Report****Quarter Ending June 30, 2026****Number of Unsheltered PEH Who Have Moved into Housing or Shelter Solutions created under the 2022 Settlement Agreement or Roadmap Agreement**

This exhibit is intended to provide data referred to in Paragraph 11.c and 11.j, DKT 1252.

This report is based on the data received from LAHSA. This report provides counts of all participants who entered Roadmap or Alliance sites on or after May 19, 2022 from an unsheltered situation. Counts are deduplicated per row (quarter of program entry) but not across rows. A participant who entered a site in two or more different quarters will be counted once in each row.

The HMIS field "Prior Living Situation" was used for this report, and only participants who entered an interim housing program indicating their prior living situation was "place not meant for habitation" were included.

Skid Row participants are identified as those who had a unsheltered geolocation within Skid Row, based on contact data in HMIS, within 6 months prior to their enrollment in an interim housing project.

**Interim Housing Programs in the City - as of June 30, 2026**

# **Exhibit D**

**Alliance Settlement Agreement  
Quarterly Report  
Quarter Ending June 30, 2026  
Persons Experiencing Homelessness (PEH) Engaged Data**

This exhibit is intended to provide data referred to in Paragraph 11.d, DKT 1252.

This report is based on data received from LAHSA. Engaged is a street outreach term defined by LAHSA as the date when a participant has begun developing a care plan with a street outreach worker and/or completes a Coordinated Entry System (CES) triage tool (such as the Los Angeles Housing Assessment Tool (LA HAT)), and/or the participant begins receiving services beyond basic life sustaining services such as provision of food and water.

The data is not limited to engagements related to housing placements at sites counting toward the Alliance Settlement Agreement.

In the Quarterly Report as of March 31, 2026 (DKT 1247), the City reported data provided by LAHSA beginning October 1, 2024 through March 31, 2026. October 1, 2024 is the earliest start date that LAHSA was able to report this data. This report provides data beginning April 1, 2026 - June 30, 2026.

LAHSA notes the following reporting rules:

This metric is reported in two ways: a count of participants newly engaged in a given quarter, and a count of all active engaged participants in that quarter.

**Count of Newly Engaged Participants:** In order to be counted in this metric, participants must have: (i) An open street outreach program enrollment with a date of engagement within the reporting quarter OR have been exited from their street outreach enrollment during the reporting quarter and have a date of engagement during the quarter on or before the day they were exited from their street outreach program; and (ii) A Current Living Situation (CLS) or Service Location within a council district's limits prior to their engagement date.

**Count of All Active and Engaged Participants:** In order to be counted in this metric, participants must have (i) An open street outreach program enrollment with a date of engagement on or before the last date of the quarter OR have been exited from their street outreach enrollment during the reporting quarter and have a date of engagement on or before the day they were exited from their street outreach program; and (ii) A Current Living Situation (CLS) or Service Location within a council district's limits prior to the reporting quarter.

LAHSA's Reporting standards use the last 6 months of prior geolocated engagement data to connect a participant to a geographical area.

The Grand Total reflects a deduplicated count of participants.

**Count of Engaged Participants by Council District  
April 1, 2026 - June 30, 2026**

| <b>Council District</b> | <b>Count of Newly Engaged<br/>Participants<br/>(Count of Distinct PEH)</b> | <b>Count of All Active and<br/>Engaged Participants<br/>(Count of Distinct)</b> |
|-------------------------|----------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| 1                       | 739                                                                        | 1,710                                                                           |
| 2                       | 397                                                                        | 883                                                                             |

# **Exhibit E**

**Alliance Settlement Agreement Quarterly Report**  
**Quarter Ending June 30, 2026**  
**Number of Encampments in the City**

This exhibit is intended to provide data referred to in Paragraph 11.e, DKT 1252.

This report is based on data received from LAHSA. LAHSA defines an encampment as a group of 5 or more tents or people staying outdoors in a concentrated location for a duration of 2 weeks or more.

In the Quarterly Report as of December 31, 2025 (DKT 1138), the City reported data provided by LAHSA as of June 30, 2025, September 30, 2025, and January 1, 2025. June 30, 2025 is the earliest quarter end date for which LAHSA was able to report this data. In the Quarterly Report as of March 31, 2026 (DKT 1247), the City reported data provided by LAHSA as of March 31, 2026. This report provides data as of June 30, 2026.

LAHSA notes the following reporting rules:

Count of distinct encampments drawn in HMIS Encampment Module that have a start date before the end of the report period, have no deactivation date or the deactivation date is on or after the reporting start date, and the encampment has one of the following encampment statuses:

**Known Encampment:** This status indicates an encampment has been identified and is being tracked in HMIS

**Planned Operation:** This status indicates an encampment has been scheduled for an encampment resolution operation, such as an Inside Safe operation, to clear the encampment and bring the participants indoors.

**Active Closure Operation:** This status indicates an encampment is undergoing an active operation to clear the encampment and bring participants indoors.

**Operation Closed, Active Maintenance:** This status indicates the operation was completed, the encampment was cleared, and that outreach workers are routinely checking on the encampment to avoid repopulation and ensure such participants are directed towards shelter resources.

**Operation Closed, No Maintenance:** This status indicates the operation was completed, the encampment was cleared, and outreach workers are no longer actively working in the encampment to avoid repopulation. This status is triggered either after a year of management with no new enrollments in the encampment, or upon decision by a Care Coordination team meeting.

**Encampment Boundary Deactivated:** This status indicates an encampment shape has been deactivated. This is triggered after 2 years with no new enrollments, or upon the decision of the Care Coordination team.

Report of encampment is broken down by Council District. If the encampment boundary crosses CD boundaries, it is counted in both jurisdictions, but a total distinct count of encampment city wide will be reported as well.

LAHSA notes that cleanup work on encampment statuses is underway, and that improvements were made to the reporting tool to ensure only the most recent status of every encampment was being counted. Both of these factors may have contributed to decreases in counts of encampments from the last quarterly report.

**Number of Encampments in the City - as of June 30, 2026**

| <b>CD</b> | <b>Encampment Status</b>                   | <b>Count of Encampments</b> |
|-----------|--------------------------------------------|-----------------------------|

# **Exhibit F**

**Alliance Settlement Agreement  
Quarterly Report  
Quarter Ending June 30, 2026  
Number of Interim Housing Referrals**

This exhibit is intended to provide data referred to in Paragraph 11.f, DKT 1252.

This report is based on data received from LAHSA. This report covers Matched Interim Housing (IH) programs, all of which are located within the City of Los Angeles. This dataset excludes LAHSA grant-administered family IH programs, non-LAHSA grant-administered programs, and the Inside Safe program, which is matched by the Mayor's Office.

LAHSA notes the following reporting rules:

**1. The Number of Beds or Opportunities Offered (Total Referrals Made & Distinct PEH Referred) during the reporting period**

A count of all participants that have an IH match during the reporting period, and a count of all matches made to IH during the reporting period, not deduplicated by client.

A match is counted when a participant has a completed Interim Housing Referral and was matched to an IH program through the IH Community Queue in HMIS.

**2. Number of PEH Who Accepted Offers of Shelter or Housing (Total PEH Enrolled) during the reporting period**

A distinct count of all participants that have:

- i. Had an interim housing match made during the reporting period. A match is counted when a participant has a completed Interim Housing Referral and was matched to an IH program through the IH Community Queue in HMIS; and
- ii. Accepted that match by showing up at the site, enrolling in the interim housing program, and occupying a bed or unit.

**3. PEH Who Have Rejected Offers of Shelter and Housing during the reporting period & Why**

A count of all participants that have :

- i. Had an interim housing match made during the reporting period. A match is counted when a participant has a completed Interim Housing Referral and was matched to an IH program through the IH Community Queue in HMIS; and
- ii. Rejected or denied that match. A match is rejected when there is no response to the match invite email or a participant schedules an intake and does not show up to the site.

LAHSA does not currently have the capability to report on the reasons why offers were rejected.

Aggregate totals count distinct PEH and deduplicate by program and across the entire portfolio. For example, a participant who enrolled at two IH sites will be counted once per row in the tables but only once in the aggregate table.

Note: Participants may have both accepted a referral and entered a program and declined a referral at different times in the reporting period. Those participants are counted once in both the enrolled and the declined columns. Therefore, enrollments and referrals declined made may not always add up to the number of referrals made.

Number of Interim Housing Referrals in the City - as of June 30, 2026

| Program ID | Agency Name                                    | Program Name                                              | Total Referrals Made | Distinct PEH Referred | Total PEH Enrolled | Total Referrals Declined | Distinct PEH Declined Referrals |

## Aggregate Data

| Total Referrals Made | Distinct PEH Referred | Total PEH Enrolled | Total Referrals Declined | Distinct PEH Declined Referrals |
|----------------------|-----------------------|--------------------|--------------------------|---------------------------------|
| 6,156                | 4,951                 | 1,831              | 4,319                    | 3,547                           |

# Exhibit G

**Alliance Settlement Agreement  
Quarterly Report  
Quarter Ending June 30, 2026  
Number of Permanent Housing Referrals**

This exhibit is intended to provide data referred to in Paragraph 11.f, DKT 1252.

This report is based on data received from LAHSA. This report covers resources matched through the Coordinated Entry System (CES). Veterans Affairs Supportive Housing (VASH), Flexible Housing Subsidy Pool (FHSP), and Pomona Housing Authority (Pomona - HA) resources are excluded. Project-based PSH covers all projects located within the City of LA. For Tenant-based PSH, coverage extends to all subsidy pools, which include offers across the entirety of LA County.

LAHSA notes the following reporting rules:

1. The Number of Beds or Opportunities Offered (PEH Matched to PBV and PEH Matched to TBV) during the reporting period  
Distinct count of all participants who have been sent an email invite to start a Universal Housing Application or who have been matched to a resource in the Resource Management System (RMS).
2. Number of PEH Who Accepted Offers of Shelter or Housing (Matches Accepted to PBV, Matches Accepted to TBV, and UHA Completed) during the reporting period  
For Project-based PSH: Count of all participants who start and complete a Universal Housing Application after they have been sent an email invite to start a Universal Housing Application  
For Tenant-based PSH: Count of all participants who were matched in the quarter and accepted that match in the quarter.

LAHSA does not currently have the capability to report on offers rejected and the reasons why offers were rejected for permanent housing.

Aggregate totals count distinct PEH and deduplicate by program and across the entire portfolio. For example, a participant with two PH matches will be counted once per row in the tables but only once in the aggregate table.

## Number of Permanent Housing Referrals in the City - as of June 30, 2026

## Matches and Matches Accepted to Project Based PSH

| RMS Building ID | RMS Resource Name                                             | PEH Matched to PBV | Matches Accepted to PBV |

# **Exhibit H**

**Alliance Settlement Agreement****Quarterly Report****Quarter Ending June 30, 2026****Number of Inside Safe Offers Made, Accepted, and Rejected**

This exhibit is intended to provide data referred to in Paragraph 11.i, DKT 1252.

This report is based on data received from LAHSA.

The Inside Safe Master List is used for this report as the "By-Name List." This list is maintained outside HMIS. Offers Made is calculated based on a count of all participants on the Inside Safe Master List during the reporting date range (May 8, 2026 - June 30, 2026).

Offers Accepted is based on program enrollments in HMIS. Only participants confirmed to have a bed assignment are counted, consistent with the logic used elsewhere in this quarterly report.

Offers Rejected is calculated based on the difference between Offers Made and Offers Accepted.

The Master List tracks Inside Safe participants who are connected to interim housing. People who at the time of the operation decline shelter have never been tracked or added to a list. For this reason, the Master List is likely undercounting total offers made.

Furthermore, ongoing data quality assurance is being completed to ensure every participant is assigned to a bed in the updated Inventory Module. In the meantime, offers accepted may be undercounted.

Work is underway to ensure all relevant parties are able to support the proper tracking of Inside Safe referrals within HMIS for reporting going forward.

**Inside Safe Offers Made, Accepted, and Rejected**  
**Reporting Period: May 8, 2026 - June 30, 2026**

| Offers Made | Offers Accepted | Offers Rejected |
|-------------|-----------------|-----------------|
| 188         | 163             | 25              |

**Alliance Settlement Agreement  
Quarterly Report  
Quarter Ending June 30, 2026  
Number of Shelter and Housing Vacancies**

This exhibit is intended to provide data referred to in Paragraph 11.g, DKT 1252.

This report is based on data received from LAHSA. This report covers LAHSA Matched IH programs which exclude LAHSA grant administered family IH programs, non LAHSA grant administered programs, and the Inside Safe program which is matched by the Mayor's office. For Permanent Housing, the report only includes resources matched through the Coordinated Entry System (CES). Veterans Affairs Supportive Housing (VASH), Flexible Housing Subsidy Pool (FHSP), and Pomona Housing Authority (Pomona - HA) resources are excluded. This report encompasses all Interim Housing (IH) sites and Project-based Permanent Supportive Housing (PSH) located within the City of Los Angeles, as well as all Tenant-based PSH subsidy pools across Los Angeles County.

LAHSA notes the following reporting rules:

1. For IH: A count of all inventory module beds or units that were vacant as of the last date of the reporting period.
2. For PSH: A count of all housing resources (building rooms or tenant based resources) that were available, on hold, or matched but not occupied as of the last date of the reporting period.

Note that small differences in Project-based PSH vacancies at Alliance sites compared to vacancy data reported in Exhibit A are likely the result of differences in data entry between Los Angeles Housing Department (LAHD) and the Housing Authority of the City of Los Angeles (HACLA) data that is reported in Exhibit A and the LAHSA data that is reported in this exhibit.
