1 **I. OVERVIEW OF PHASE I DISCOVERY**

2 **A. Purpose**

3 The Phase I Discovery Plan is intended solely to educate the parties about
4 foundational issues involved in this litigation, including the identification of the
5 proper parties to this litigation, the identity of relevant third-parties, organizational
6 structure, the identify of relevant witnesses, and identity, nature, and location of
7 relevant documents. It is also intended to allow the parties to obtain certain threshold
8 information and documents in order to evaluate their claims and defenses on the
9 pleadings, inspect the subject vehicles, and obtain information, especially in
10 connection with vehicle accidents, at the earliest possible time after such accident has
11 occurred. Phase I discovery should be conducted in such a way as to ensure that
12 Plaintiffs and the Toyota defendants (“Toyota Defendants”) are both afforded the
13 opportunity to obtain information on foundational, threshold issues, and such
14 discovery should proceed concurrently and in a manner that is fair and equitable to
15 both parties.

16 It is expected that discovery on foundational issues during Phase I will enable
17 the parties to develop a more narrowly tailored discovery plan for subsequent phases
18 of this litigation and to be more focused, economical and efficient in subsequent
19 phases of discovery. In addition to the foundational information to be provided to
20 Plaintiffs by Toyota, Phase I will also provide Toyota the opportunity to obtain
21 foundational, threshold information from Plaintiffs, the class representatives, and
22 relevant third-parties.

23 **B. General Description Of Discovery To Be Conducted During Phase I**

24 During Phase I, the Toyota Defendants will produce witnesses pursuant to Rule
25 30(b)(6) to testify concerning the twenty-one issues outlined below (the “limited
26 30(b)(6) depositions” or “preliminary 30(b)(6) depositions”). In keeping with the
27 purpose of Phase I, these depositions are primarily educational and foundational as
28 defined above. In addition, the Toyota Defendants will commence production of

1 relevant ETCS documents produced in certain state court actions and will supplement
2 its governmental production as specifically set forth below in Section II.B. Toyota
3 has also agreed that it will provide plaintiffs with exemplar documents in connection
4 with depositions, where appropriate, and in those cases where documents will assist in
5 educating counsel on the subject matter of the deposition. Because the limited
6 30(b)(6) depositions and these initial document productions are designed to assist
7 plaintiffs in crafting more targeted discovery requests in subsequent phases of this
8 litigation, no written discovery requests (whether in the form of interrogatories,
9 requests for production, requests for admissions, or other deposition notices) shall be
10 propounded on Toyota Defendants during Phase I.

11 During Phase I, Plaintiffs shall provide completed Plaintiff Fact Sheets and
12 Class Representative Fact Sheets, including the production of any documents
13 responsive to the fact sheets. Additionally, Toyota Defendants shall be permitted to
14 conduct inspections of the subject vehicles.

15 Both parties shall be permitted to subpoena materials from third parties in the
16 individual and class cases as appropriate (including, but not limited to, medical
17 records, insurance records, accident reports and reports of responding personnel and
18 vehicle history and service records).

19 **C. Time Period For Phase I Discovery**

20 Phase I Discovery, as outlined below, shall commence upon the entry of this
21 Order and shall extend for one-hundred (100) days thereafter. The parties shall use
22 good faith reasonable efforts to complete the discovery outlined in this Phase I
23 discovery plan; however, either side may move the Court for an extension of Phase I
24 discovery.

25 **D. State/MDL Coordination**

26 The parties agree the Phase I discovery plan needs to be coordinated to the
27 extent feasible with UA cases pending in state courts. The scheduling of limited
28 30(b)(6) depositions during Phase I shall be coordinated with the state court actions to

1 the extent possible. The parties are currently working to develop a more detailed plan
2 concerning the protocol for state court coordination and will submit a supplemental
3 order addressing coordination.

4 **E. Proposal For Phase II Discovery**

5 Twenty (20) days prior to the completion of Phase I Discovery, the parties shall
6 submit to the Court a Joint Proposed Order Governing Phase II Discovery. The
7 proposed order shall reflect alternative provisions where there is dispute. The Liaison
8 and Lead Counsel Committees may each supplement the proposed order with one
9 brief of no more than ten (10) pages. The Toyota Defendants may supplement the
10 proposed order with one brief of no more than fifteen (15) pages.

11 **F. Modification Of Discovery Plan And Limitations On Phase I**
12 **Discovery**

13 Modification of this Discovery Plan may be necessary based on experience
14 operating under it and the parties and claims ultimately included in the consolidated
15 complaint. Any party is therefore free to seek modification of this Phase I Discovery
16 Plan for good cause shown.

17 No party to this litigation shall engage in discovery that is not explicitly set
18 forth in this Phase I Discovery Plan without leave of the Court or Special Masters.

19 **II. PHASE I DISCOVERY PROVIDED BY THE TOYOTA DEFENDANTS**

20 **A. 30(b)(6) Depositions On Foundational Issues**

21 **1. Scope of Depositions**

22 The parties have conducted meet and confer sessions and have reached
23 agreement concerning topics to be covered in the limited 30(b)(6) depositions. During
24 Phase I of discovery, the Toyota Defendants shall produce a witness (or witnesses) for
25 deposition pursuant to Fed. R. Civ. P. 30(b)(6) to address the following threshold
26 topics:

- 27 1. The Toyota Defendants' organization structure.
- 28

- 1 2. The roles and responsibilities of each of the various Toyota companies
2 with respect to the design, manufacture and sale of Toyota vehicles.
- 3 3. The relationships among the various Toyota entities, between Toyota
4 entities and Toyota and Lexus dealers, and between Toyota entities and
5 their suppliers.
- 6 4. The identity, nature, location and retention of documents related to the
7 design, evaluation, and testing of the ETCS system and any modifications
8 or adaptations of the ETCS system for Toyota vehicles.
- 9 5. The identity, nature, location and retention of documents related to the
10 manufacture of the ETCS system and components, including specifically
11 drawings, specifications, testing standards, test reports, FMEA (including
12 FTA and DRBFM) and quality control documents.
- 13 6. The identity of the persons and departments involved in the design,
14 evaluation, testing and manufacture of the ETCS and its components.
- 15 7. The identity, nature, location and retention of documents related to
16 information Toyotas has received about speed control, surge, and SUA
17 events in Toyota and Lexus vehicles, including specifically warranty
18 records, customer complaints, claims and lawsuits (“Field Performance
19 Documents”).
- 20 8. The identities of the persons and departments involved in the intake and
21 evaluation of Field Performance Departments.
- 22 9. The identity, nature, location and retention of documents related to
23 electronic data recorders, electronic data readers, and stored electronic
24 data (collectively, “EDRS”, including but not limited to, documents
25 containing any EDRS data regarding any SUA events).
- 26 10. The identity of the persons and departments knowledgeable about EDRs
27 [sic] and stored data in Toyota and Lexus vehicles.
- 28

- 1 11. The general process for the conception, creation, production and use of
2 advertising relating to Toyota, Lexus and Scion vehicles.
- 3 12. A general description of the testing done to confirm the performance of
4 the ETC system, including the evolution of ETCS design, development,
5 and testing.
- 6 13. The location and retention of exemplars of any and all sales brochures,
7 user manuals, instructions of any kind and any other documentation that
8 may have accompanied Toyota vehicles.
- 9 14. The procedures employed for investigating and responding to complaints
10 of unintended acceleration by owners or operations of any Toyota
11 vehicles.
- 12 15. The identity, nature, location and retention of any and all reports or
13 studies regarding SUA events in any Toyota vehicles, including but not
14 limited to summaries describing which Toyota vehicles, models and years
15 have been the subject of any reported SUA events and any and all studies
16 or analyses relating to any suspected causes of SUA events in any Toyota
17 vehicles.
- 18 16. A general description of the internal decision-making process by the
19 Toyota Defendants about what and when to inform Toyota customers,
20 governmental agencies and the public about SUA events and the
21 identities of the persons and departments involved in that decision-
22 making process and the identity of the persons and departments involved
23 in that process.
- 24 17. The identity, nature, location and retention of any and all documents that
25 refer or relate to any vehicle warranty materials and advertising of the
26 Toyota Defendants regarding the quality, reliability or safety of any
27 Toyota vehicles manufactured and sold from 1998 to the present.
- 28

1 18. The identity, nature, location and retention of any documents concerning
2 any agreements or communications between any of the Toyota
3 Defendants and any outside public relations firms or marketing
4 consultants that refer or relate to claims of SUA in any Toyota vehicles.

5 19. The identity, nature, location and retention of any documents prepared by
6 or on behalf of any of the Toyota Defendants or published in any
7 newspaper, journal, magazine, blog, webpage or newsletter wherein
8 Toyota publically responded to UA complaints (for example, the Gilbert
9 Press Briefing).

10 20. The identity, nature, location and retention of any documents reflecting or
11 relating to communications with Toyota dealers regarding SUA events in
12 any Toyota vehicles.

13 21. The identity, nature, location and retention of any documents regarding
14 the design, development and testing of the ETCS systems installed in any
15 Toyotas vehicles during the period from 2002 to 2008.

16 **2. Production of Documents at Depositions**

17 Deponents shall not be required to produce documents or other tangible
18 evidence in connection with the preliminary 30(b)(6) depositions. However, Toyota
19 will provide exemplar documents in connection with the preliminary 30(b)(6)
20 depositions in those instances where Toyota believes such materials will aid counsel
21 in understanding the subject matter of the deposition.

22 **3. Noticing Depositions**

23 Because the parties have reached agreement concerning the scope of the limited
24 30(b)(6) deposition(s), Plaintiffs shall not be required to serve formal notice of
25 depositions. However, given the number of witnesses, the tight timing, and the fact
26 that many witnesses will be traveling from Japan, scheduling of particular depositions
27 shall be agreed upon in advance.
28

1 Although no notice shall be required, the limited 30(b)(6) deposition(s) shall be
2 strictly limited to the twenty-one topics set forth above.

3 The need for cross-notice for related state court actions will be addressed in a
4 supplemental order that the parties will submit to the Court.

5 **4. Application of Rule 30**

6 These limited 30(b)(6) depositions are being taken pursuant FRCP 30 and may
7 be used for all purposes permitted under the Federal Rules. Pursuant to Rule 32(d)(3),
8 all objections are preserved except as to form of the question and responsiveness of
9 the answer.

10 **5. Additional Principles Governing Phase I 30(b)(6) Depositions**

11 As discussed in Section II.B., *infra*, Toyota will produce certain documents on a
12 rolling basis during Phase I. The parties agree, however, that the preliminary 30(b)(6)
13 depositions are independent of these document productions and no 30(b)(6) deposition
14 shall be continued or postponed based on these Phase I document productions.

15 Additionally, during this litigation the parties shall endeavor to avoid
16 duplicative depositions or repetitive questions and to avoid deposing any witness more
17 than once on the same subject matter. To the extent that substantive questioning
18 concerning the merits of Plaintiffs' claims is pursued during the limited 30(b)(6)
19 deposition(s), it is Toyota's position that no Toyota witness deposed during Phase I
20 shall be deposed again in subsequent phases of this litigation on the same subject
21 matter, except by agreement of the parties. Plaintiffs do not agree with Toyota's
22 position.

23 **B. Documents Toyota Will Produce In Phase I**

24 The parties have agreed that limited document production may occur during
25 Phase I, but only as specified herein.

26 During Phase I, the Toyota defendants will commence a rolling production of
27 relevant ETCS documents produced in *Alberto, et al. v. Toyota North America, Inc.,*
28 *et al.*, Genessee County, Michigan, Case No. 09-91973NP, and *Ezal, et al. v. Martin*

1 *Resorts, Inc., et al.*, San Luis Obispo County Superior Court, California, Case No.
2 CV090425.

3 Additionally, the Toyota Defendants will produce on a rolling basis relevant,
4 non-privileged documents that Toyota has produced to NHTSA, the United States
5 Congress, and State Attorneys General since the Court entered Order No. 3 (the
6 “Supplemental Government Production”). Within thirty (30) days of producing
7 documents to NHTSA, the United States Congress, or State Attorneys General,
8 Toyota will produce a Supplemental Governmental Production to Plaintiffs, subject to
9 withholding or redaction for privilege, relevance, and/or confidentiality. Toyota
10 reserves the right to seek leave to extend the time permitted to make Supplemental
11 Governmental Productions. The parties agree that the Supplemental Government
12 Production will be limited to Phase I and that any additional documents produced to
13 governmental agencies after Phase I will be addressed in subsequent phases of
14 discovery. In addition, Plaintiffs have agreed that neither they, nor anyone acting on
15 their behalf, will seek to circumvent the prohibition on document requests during
16 Phase I by directly or indirectly requesting legislators or other governmental officials
17 or employees to request documents from Toyota. Lead Counsel for Plaintiffs will
18 communicate to other plaintiffs’ counsel in the MDL and plaintiffs’ counsel in related
19 state court cases that they should not thwart the purpose and agreement reached in this
20 Phase I discovery plan.

21 The parties agree that limited Phase I 30(b)(6) depositions are independent of
22 any documents produced by Toyota during Phase I and that the Phase I depositions
23 will not be continued or postponed on the basis of documents produced during Phase I
24 or the schedule of production of documents during Phase I.

1 **III. DISCOVERY TO BE PROVIDED BY PLAINTIFFS AND THIRD**
2 **PARTIES IN PHASE I**

3 **A. Fact Sheets**

4 **1. Timing and Form of Fact Sheets**

5 **a. Personal Injury/Wrongful Death Cases**

6 **(1) Form of Fact Sheets**

7 The form of the fact sheet shall be the subject of meet and confer between
8 counsel. There shall be separate Plaintiff/Class Representative Fact Sheets for (1)
9 individual personal injury/wrongful death cases and (2) economic loss class actions.
10 While the information and form of Fact Sheets between these two categories are
11 expected to be similar, the Facts Sheets will be tailored to the case type (i.e., personal
12 injury or class economic loss, consumer or non-consumer, etc.). Class Representative
13 Fact Sheets are discussed below in Section III.A.1.b.

14 No later than August 30, 2010, the Parties shall submit a proposed form for the
15 Personal Injury/Wrongful Death Plaintiff Fact Sheets for approval by the Court or
16 Special Masters.

17 **(2) Timing of Fact Sheet Responses**

18 For all personal injury/wrongful death cases currently in the MDL, Plaintiffs'
19 case-specific fact sheet responses shall be due thirty (30) days from the approval of
20 the Fact Sheet by the Court or the Special Masters.

21 For future personal injury/wrongful death cases transferred to the MDL,
22 Plaintiffs' case-specific fact sheet responses shall be due thirty (30) days from when
23 the Conditional Transfer Order is filed with the MDL Court or from when Toyota is
24 served with the summons and complaint, whichever is later.

25 Should any future UA personal injury/wrongful death cases be filed directly in
26 the Central District of California, Plaintiffs' case-specific fact sheet responses shall be
27 due thirty (30) days from when Toyota is served with the summons and complaint,
28 regardless of the status or form of Toyota's response or answer to the complaint.

1 because they never existed, were destroyed, have been lost, misplaced, or stolen, or
2 have never been, or are no longer, in the possession, custody, or control of the party.
3 The statement shall set forth the name and address of any person or organization
4 known or believed by the party to have possession, custody, or control of that item or
5 category of item.

6 All Fact Sheets Responses may be subject to motions to compel under
7 FRCP 37.

8 **3. Document Production Pursuant to Fact Sheets**

9 Documents produced in response to fact sheets shall comport with the following
10 requirements:

11 (1) In personal injury cases, case-specific materials shall be produced to
12 local counsel on the particular case, copying without enclosures Lead/Liaison
13 Counsel. For the consolidated class action, documents shall be produced to lead
14 counsel.

15 (2) Document production shall be due thirty (30) days after service of fact
16 sheet responses.

17 (3) The production shall identify the request(s) the production is in response
18 to by labeling or an index.

19 (4) Plaintiffs' production shall include signed record release authorizations
20 as negotiated by the parties through a meet and confer process.

21 (5) The documents shall be produced in electronic format or as agreed to by
22 the parties through a meet and confer process.

23 (6) Bates labeling: The producing party shall give each page of any
24 document it produces a unique number, using a consistent numbering system that
25 identifies the producing party (using a letter or series of letters as a prefix).

26 **4. Dispute Resolution Concerning Fact Sheets**

27 Defendants have the right to compel further responses to the Plaintiff Fact
28 Sheets in appropriate situations, such as where they deem the responses to be

1 incomplete, inadequate, or evasive. Prior to filing any motion to compel, the parties
2 agree to engage in a meet and confer, either telephonically or in writing, and to make
3 best efforts to resolve the dispute without intervention by the Special Masters or the
4 Court.

5 Pursuant to the Court's Order Regarding Appointment of Special Masters [Dkt.
6 No. 238], the parties shall submit a proposed order addressing the process to be used
7 to present discovery disputes to the Special Masters for resolution.

8 **5. Supplementation**

9 Plaintiffs shall supplement prior Fact Sheet Responses consistent with Fed. R.
10 Civ. P. 26(e).

11 **B. Vehicle Inspections**

12 Plaintiffs and class representatives shall identify, in each case, whether the
13 subject vehicle exists, and if so, its current location, general condition, and vehicle
14 identification number, if known.

15 The parties agree that vehicle inspections will be permitted commencing in
16 Phase I. The protocol for vehicle inspections will be determined on a case-by-case
17 basis and agreed upon by the parties. If there is no agreement, the issue will be
18 resolved with the help of the Special Master(s).

19 **C. Third-Party Subpoenas**

20 Document subpoenas for case-specific documents may be issued as of the date
21 this Order is entered by the Court. During Phase I, any party may subpoena third
22 party records in the individual and class cases as appropriate, including, but not
23 limited to, medical records, insurance records, accident reports and reports of
24 responding personnel and vehicle history and service records.

25 The parties must notify each other of any subpoenas issued and the parties may
26 join in each other's subpoenas.

27 In the event that documents produced by persons or entities who are not parties
28 to this action are not, when produced, identified by a unique numbering system, the

1 party at whose request production was made shall be responsible for numbering each
2 page with a unique number, using a consistent numbering system that identifies the
3 producing party (using a letter or series of letters as a prefix).

4 **D. Depositions Generally Not Permitted**

5 At Plaintiffs' request, the Toyota Defendants have agreed to forego taking
6 depositions of plaintiffs, class representatives, and other fact witnesses during Phase I.
7 Defendants, however, reserve the right to seek leave of the Court or Special Masters to
8 depose persons or parties where such depositions are necessary for (1) the
9 preservation of testimony for trial or (2) to determine jurisdiction or present specific
10 defenses in connection with foreign plaintiffs.

11 **IV. PHASE I DEPOSITION PROCEDURES**

12 **A. Attendance**

13 **1. Access to Confidential Information and Documents**

14 If a deponent is being examined about any document designated confidential
15 pursuant to a confidentiality agreement or order or the confidential information
16 contained therein, persons to whom disclosure is not authorized under the
17 confidentiality order shall be excluded while such examination occurs.

18 **2. Unnecessary Attendance**

19 Unnecessary attendance by counsel is discouraged, and the Court may not
20 compensate such attendance in any fee application to the Court.

21 **B. Conduct Of Depositions**

22 Reasonably in advance of the date scheduled for a deposition, any attorney
23 designated as a questioner for that deposition shall coordinate with the other counsel
24 whose interests they represent regarding the areas of examination and specific
25 questions to be asked. The purpose of this coordination is to ensure that a thorough
26 deposition is conducted. Counsel who will not be serving as questioners are
27 encouraged to submit proposed questions or lines of questioning to the attorney
28 designated to conduct the deposition on their behalf. Attorneys will be responsible for

1 tracking the dates of depositions and suggesting their proposed lines of questioning on
2 a timely basis. New or supplemental depositions of witnesses will not be scheduled
3 without prior leave of the Special Masters or the Court.

4 **C. Duration Of Examinations**

5 Consistent with Fed. R. Civ. Pro. 30(d)(1), the deposition of each native
6 English-speaking deponent shall be limited to seven (7) total hours, excluding time
7 taken for breaks, meals, and other reasons, not extend beyond one (1) day except by
8 agreement of the Parties or with leave of the Special Masters or the Court.

9 The deposition of each non-native English speaking deponent shall be limited to
10 ten (10) total hours, excluding time taken for breaks, meals, and other reasons, not
11 extend beyond one (1) day except by agreement of the Parties or with leave of the
12 Special Masters or the Court.

13 The Parties recognize the need for flexibility in determining the duration of
14 examinations and shall meet and confer in good faith to attempt to resolve any
15 disputes over appropriate exceptions to this durational limitation. Should the Parties
16 be unable to reach agreement, deviation from these time limitations will be permitted
17 only with leave of the Special Masters or the Court. Any request to extend the time
18 limit on a deposition must be accompanied by a certification that compelling reasons
19 preclude completion of the deposition during the allotted time period and that the
20 particular information being sought cannot be elicited from a witness that is (or could
21 be) scheduled to appear at another time.

22 **D. Deposition Disputes**

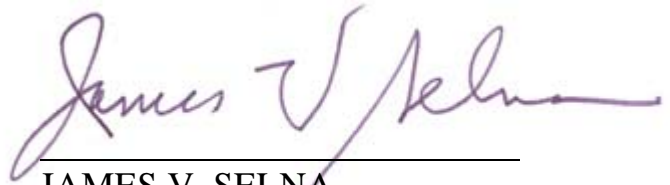

23 During depositions, disputes that arise that cannot be resolved by agreement
24 and that, if not immediately resolved, will significantly disrupt the discovery schedule
25 or require a rescheduling of the deposition, may be presented to the Special Masters
26 by telephone. The presentation of the issue and the Special Master's ruling will be
27 recorded as part of the deposition.

E. Additional Order

The Parties shall meet and confer to develop a protocol concerning attendance of depositions in the MDL by counsel in the state court actions. This protocol will also address the number of attorneys permitted to question each witness, the method for selecting questioners, and any other issues related to the conduct of Phase I depositions that the parties jointly wish to address. The parties shall submit this supplemental proposed order concerning the conduct of depositions and coordination with state court cases to the Court or Special Master(s) for approval. No Phase I limited 30(b)(6) depositions shall be conducted until this proposal has been approved by the Court.

Dated: July 20, 2010

JAMES V. SELNA
UNITED STATES DISTRICT JUDGE

1
2 Dated: July 16, 2010

Respectfully submitted,
